Welcome to the Chino Police Department's Records Training Program. During your training, you will be assigned to selected Records Training Officers who have been chosen for their experience, dedication, and training skills. The Records Training program is a structured eight-week program. If for some reason you are unable to work on assigned training day, your program may be extended accordingly. Should the Records Training Officer and/or the Records Supervisor determine a need for additional training, your training may also be extended. It is imperative you report to work each day to help complete your training within an acceptable time period. The training program has been designed to be completed within an established time frame, with allowances for the learning ability of the individual trainee.

You will find the Records Training Program can be very demanding and time consuming. It is important that you focus your energy on the training program and give it your undivided attention each day. A careless approach to your training will have a negative impact on your quest to be a Records employee with the City of Chino. The efforts that you put into the training program will be directly proportionate to the benefit you reap from the high quality training you will receive.

It is important you retain all the information provided to you during your training. You will be tested on your job knowledge periodically. At the completion of the training phase, you will be required to take a final written examination to evaluate your retention of the information you were provided.

Your training will be evaluated on a weekly basis. Successful completion of training will allow you to be assigned as a Records employee.

Questions you have regarding your performance, the training program, or your evaluations should be discussed with your Training Officer. If your Training Officer is unable to answer your question or provide a satisfactory response, your Training Officer will arrange a conference with a Records Supervisor.

Please understand that it is our desire that you successfully complete this training program. A great deal of expense and effort has been invested in you and you are already deemed a value to the organization. As you embark on this training program, it is the department's expectation that you will give 100% to learning and mastering the numerous tasks associated with the position. Our commitment is to provide you with everything you will need to successfully complete this process. Congratulations on this adventure!

PERFORMANCE EXPECTATIONS

As a new hire of the Chino Police Department, it is imperative that you understand the Department’s expectations of you while in a probationary status.

A training officer will be assigned to you and you will begin a program of on the job training. You will be expected to maintain an acceptable level of performance and progress throughout your training and during your 12-month term as a probationary employee. You will be evaluated by your training officer on a regular basis, and receive a copy of all evaluations and informal memos concerning the progress of your learning and performance.

If you do not understand a specific item or area of training, do not hesitate to ask questions. It is expected that you will make mistakes. However, it is also expected that you will acknowledge your mistakes and learn from them. They will be brought to your attention in the spirit of constructive criticism.

Once you have successfully completed the initial phases of your orientation and training, and your training officer certifies that you are capable of handling a shift by yourself, you will be so assigned. This event will not signify the end of your learning process. You will be expected to continue to expand your knowledge and expertise throughout your employment.

Failure to maintain an acceptable performance level could result in your eventual termination from employment. Such action would be taken only as a last resort.

By signing this letter, you are acknowledging its contents and that you understand that the City will only retain employees who perform at an acceptable level during all training phases.

Shift Expectations

The supervisory staff of the Chino Police Department has clear expectations of each of us. The expectations are clear, written and designed to compliment the professional growth of the Department, the Bureau and the Individual members alike. As your supervisor it is my responsibility to discuss and clarify these expectations with you. In turn, I expect that you will likewise discuss any questions or comments you have with us.

The attached expectations underscore many of the philosophical points of our Department. I have also included additional expectations of my own. They are not intended to be all-inclusive, but rather intended to reflect the Department's commitment to these principles. I do intend to use the expectations as a guide to assist me in making constructive comments and providing feedback in evaluating your overall work performance. They are in no particular order and should be considered equally important.
The Chino Police Department Records Bureau has had many changes over the years. However, one thing that remains constant is the Records Technicians' dedication to supporting our officers. Records Technicians help the officers do their job in the field by maintaining the best quality Records system possible.

The rapid growth in population, industry and the jurisdictional area of the City of Chino in the last few years has necessitated an increase in the number of Police Officers required to keep peace in our City. More officers take more reports, requiring new and more sophisticated techniques in Records Management. By staying current with improved methods of tracking criminal activity, Records Personnel can keep the officers in the field up to date.

Our Records Bureau maintains an accurate and reliable Records system to ensure that the officers and supervisors are apprised of any information will protect them in the field. Records Technicians also assist officers in submitting complete and consider crime reports. The Records Technicians then prepare the officers' reports for submission to the Courts, to the District Attorney, to Child Protective Services, and Department of Justice.

Approximately 100 people come into our lobby daily. We receive about 500 phone calls per day. To most people who need police assistance, the Records Technicians may be the first contact they have ever had with a Police Department. Each person has a different need: from angry citizens demanding information regarding arrests, citations, or impounded vehicles to senior citizens who need assistance with difficult paperwork, or convicted criminals fulfilling registrant requirements.

Our Records Technicians set the tone for Chino Police Department by being experts in many different areas. In most Police agencies, each Records Technician is trained in a specialty. At the Chino Police Department, all of our Records Technicians are educated to handle any front counter, telephone, officers, computer, report or customer service situations. Chino Police Department can ensure our citizens the best quality service by the efficient, well-trained Record Bureau.

Absences
When an employee is unable to report for duty because of illness, the Records Supervisor shall be notified no less than one hour prior to duty time. If the Records Supervisor is unavailable, notify the Communications dispatcher on duty and/or the Patrol Sergeant (W/C). No employee shall feign illness or injury, falsely report themselves ill or injured or cause their accumulated sick leave to be utilized when their absence from duty is not due to a bona fide illness, injury or other conditions set forth in the current applicable Memorandum of Understanding. Employees shall not be absent from duty without permission or proper leave. (Section 1.02.54 of the Policy and Procedure Manual)

Admittance to the Communications Center
Other than communications and department supervisory personnel, admittance to the Communications Center will be at the discretion of the shift supervisor.

Chain of Command
Chain of command is the routing of problems, complaints, and situations throughout the organizational structure.

Complaints
Complaints received concerning an employee will be forwarded to the Patrol Sergeant on duty. The complainants will be offered a Complaint Form to put their complaint in writing, if they wish. If the Sergeant is not available the take the caller’s name and phone number so the Sergeant can return the call. Do not solicit any additional information.

Confidentiality
All Police Department personnel are expected to maintain a high level of confidentiality. It is a felony to divulge any information obtained through any computer system within the department or to use the computer system for personal gain. Any information obtained during the course of the employee’s duties is to remain confidential and is not to be divulged outside of the department. Information is not to be released to the news media at any time by Records personnel. The Patrol Sergeant will handle all press releases at the station and the Public Information Officer will handle them at the scene.

Overtime
As a rule, there is no overtime scheduled for Part-Time Records employees. The Records Supervisors or the Technical Services Bureau Lieutenant will allow overtime for Full-Time personnel with prior approval.

Personal Emergencies
If a Records employee has a personal emergency during work hours, that person is to notify the on-duty Records Supervisor. Example: If an employee needs to leave work to take care of the matter or if the Records Supervisor feels the employee is unable to
perform his or her duties due to the condition of the emergency. The Records Supervisor will also ascertain if the employee is in a condition to drive. If the employee handling the emergency needs any assistance, it will be offered and provided by the Records Supervisor.

**Ride-a-long/Sit-a-Longs**
Records personnel will be assigned on-duty sit-a-Longs in Communications and Patrol at the discretion of the Supervisors. This is to allow for familiarization of the city, Dispatch and Patrol procedures. All ride-a-Longs on and off-duty will have prior approval by the on-duty Watch Commander.

**Shift Change**
Records personnel are on a 4-10 work week. Employees work four ten-hour days with three consecutive days off. Shift rotation is selected in order of seniority every six months.

Shift sign ups should be completed one month prior to rotation. Sign ups, by seniority, must be completed by the end of the SECOND DUTY DAY after sign-ups have been initiated. Failure to sign up for a shift on the second duty day will cause the employee to be skipped. No bumping will be allowed after the fact. The employee would then have to choose from the remaining shifts. (Section 2.29.02 of the Policy and Procedure Manual.)

**Shift Trades**
Shift trades will be permitted at the convenience of the Department. Employees working in like classifications may work for one another upon mutual agreement. When an employee is desirous of trading shifts with another employee, a “Shift trade Approval Form” will be completed. The form will be forwarded to the Records Supervisor.

Once an employee signs the agreement to work for another employee and the schedule is adjusted by the supervisor, the trading employee becomes fully accountable and responsible for the duty day in question. Failure to appear for such duty day will be charged against that employee. The department is not responsible for the repayment of shift trades. It is the sole responsibility of the members involved to ensure repayment is met. (Section 2.29.04 of the Policy and Procedure Manual)

**Time Off Requests/Vacation Requests**
Time off requests and vacation requests are to be approved by the Records Supervisor. An overview of the department vacations guidelines is outlined in the policies/procedure manual under section 2.34.

**Work Hours**
Records personnel work rotating shift schedules. These hours are subject to change based on staffing levels and departmental needs.
Work Hazards

Fire
If there is a fire in the department, regardless of the location of the fire, the Dispatcher should (if time permits) advise the Fire Department, notify the Montclair Police Department to take over all 9-1-1 functions, and leave the building. A broadcast to all field units should be made if possible. If the Dispatcher is unable to make any notifications prior to leaving the building, the Command Post should be activated immediately and all notifications should be made from there. Due to the possibility of toxic fumes from burning materials inside the building it is important for the all employees to leave the building no matter wherein the building the fire is located.
Station Security

Code 900
The following, as a station security plan, represents a practical and workable guide to personnel in the event of an attack on the police facility by an organized, armed, hostile individual/group or a bomb threat:

Tactical Plan: Officers should immediately seal avenues of escape, call for assistance, and make sure that all persons who may be harmed are evacuated whenever possible. Once suspect(s) are isolated, time is to the benefit of the officers, and the full resources of the department, if not already seized, should be used to assist officers in removing suspects from their location. To minimize the possibility of injury to officers and others, appropriate special equipment and trained personnel should be requested as needed. In the event of an attack on the police facility, the designation “CODE 900” will be used in order to notify police personnel via radio and public address system. “CODE 900” will initiate necessary action for station security and field operations.

Station Personnel/Field Units: When initial information of a “CODE 900” is received, broadcast, and/or announced on the public address system, the Patrol Supervisor will immediately determine that the communications unit is adequately protected. He or she will then initiate a police facility security plan by assigning officers at locations to secure and guard the remainder of the station. If possible, the Patrol Supervisor will see that surrounding agencies are notified by phone or broadcast of a “CODE 900”, in order to alert them should assistance be required. The Patrol Supervisor will also advise the Chief of Police and Division Commanders, if not in the facility.

Upon being notified of a “CODE 900”, personnel in the station will remain indoors, away from windows. No non-emergency phone calls will be made by personnel to avoid congestion of telephone lines. Sworn personnel will assist civilians to locations of safety, and if possible, escort them out of the building and away from it. Once accomplished, the Patrol Supervisor will be contacted for assignment. Field units will move within two blocks of the station, out of sight of the structure. No unit will come directly to the station unless directed to do so by the field supervisor or senior officer acting in his stead. A supervisor or senior officer in the field will establish a command post and direct units in the area to isolate the structure. All fields units will use 9SBLAW1 frequency once a “CODE 900” is broadcast.

In order for station communications and field personnel to determine the establishment of a command post, and to determine what type of security problem is occurring within the police facility, the following will occur: Field supervisor will attempt, by radio, to determine if communications is experiencing a bomb threat, sniper problem, or hostage situation. This will inform the field supervisor at the command post of the type of security problem in existence and how to respond. Also, this inquiry will inform communications that the command post is established and exterior security is in progress. If no response from station communications is received when the above inquiry is made,
the field command post will assume that the police facility is under attack or that personnel are hostages.

Contact other agencies for additional support (i.e. SWAT, manpower, and possible mutual aid) when a hostage situation is suspected or has been determined. The command post will make contact with these agencies by phone, if possible, to avoid being monitored by the hostile force. Use phone booths in the vicinity of the command post or nearby business phones to accomplish this. Code 900 procedures will remain active until the hostile force has been eliminated.
Agency Forms

Advance Paycheck Requests Forms
Employees may request an advanced paycheck for authorized vacation of 10 or more days with the department head approval. The request must be filed with the Director of Management Services five days before the check is desired. The advance paycheck will be issued between 1:00pm and 3:00pm the last working day prior to going on vacation. If you have any questions, contact Administration.

Alert Forms
Officers who have knowledge of specific persons fill out this form. Once completed, the form is forwarded to the Records Bureau and the information is then entered in the local file of the Records Management System.

Inter-Departmental Memo
All memos are to be directed to the employee’s immediate supervisor. The supervisor will determine what action should be taken or how the memo should be routed.

Narcotics Activity Form
This form can be filled out by anyone in the department who receives information on narcotics activity at a location. All completed forms are forwarded to the Narcotics unit for follow up.

Officer Safety Worksheet
Officers who have knowledge of hazards or officer safety concerns at a certain location fill out this form. Once completed, the form is forwarded to the communications center and the information is then entered in CAD under the location of the hazard. An officer safety concern is “attached” to the address so officers can be aware of the situation before they arrive at the scene.

Overtime Forms
Overtime slips are to be filled out completely, including duty code, the number of hours worked and whether it is to be paid in cash or time off. The amount of regular and overtime hours worked and the reason for the overtime is to be completed on the overtime slip. Do not forget to sign the bottom and turn it in to the Records Supervisor. Overtime slips that are approved and turned into Administration prior to the close of payroll for that pay period will appear on the next check.

Sick Leave Forms
The Records Supervisor initially completes sick leave forms at the time the employee calls in sick for work. Upon the employee’s return to work, the sick leave form will be signed by the employee and forwarded to Administration.
Time Off Request Forms
Time off request forms are to be filled out completely, including exact dates and times, along with the type of time used and forwarded to the Records Supervisor for approval. Also indicate your regular days off by marking an “X” for those days.

Tow Rotation
The City of Chino contracts for tow services. The tow rotation between the companies is daily and changes at midnight. There is a log denoting the tow for the day. For Big Rig Tows, ACTS (All Commercial Towing Service) may be utilized even though it falls outside of the daily rotation.
TO: RECORDS UNIT PERSONNEL
FROM: Christopher Corbin, Professional Services Manager
ATTN: Wes Simmons, Captain
DATE: February 17, 2016

SUBJECT: Use of Personal Communication Devices (Records Unit)

After careful consideration of the memorandum submitted by various staff in the Records Unit requesting that Unit personnel be permitted to keep their personal cell phones on their person or at their workstation, Supervisors Acuna and Chinnis, and I, have decided to approve this request. As we move forward with this new policy, it is important that we remember that our Unit has experienced problems with the excessive use of “Personal Communications Devices” (“PCDs) in the past. In the hope of avoiding a re-occurrence of such problems, we want to take this opportunity to outline the following expectations regarding the use of PCDs while on duty:

1. The use of PCDs while on duty shall comply with Department Policy, including but not limited to Policy 702 (Personal Communication Devices) and Policy 1058 (Social Media), both of which are attached.

2. While it is expected that Unit staff shall limit their use of PCDs while on-duty to official business only, it is recognized that circumstances may occasionally warrant brief personal communications on such devices (e.g. inform family of extended hours; address urgent matters at a child’s school; etc.).

3. The use of PCDs while on-duty for casual communication not related to urgent personal or family matters (e.g. checking in with friends, posting on social media, etc.) is not considered appropriate.

4. Records Unit personnel shall not allow the use of personal electronic devices to interfere with or hinder their work performance.
5. The use of personal electronic devices by any employee shall not interfere with or interrupt the work performance of other employees.

6. Cellular telephones shall be set on silent/vibrate mode at all times. Calls shall not be answered while on-duty unless exigent circumstances exist.

7. Extended or frequent use of departmentally issued PCDs or personally owned PCDs while on duty for personal use may be subject to discipline, including but not limited to the removal of the right to keep a PCD at one’s workstation.

8. Utilizing PCDs for the unauthorized distribution, receiving, or viewing of audio, visual, or photographic recordings obtained during the course of employment is prohibited.

9. If circumstances exist where an individual believes that special consideration is warranted (e.g. family member in the hospital), said individual should meet with their supervisor(s) to discuss the matter and request special consideration. The granting of such special considerations is not guaranteed.

10. Trainees shall store all PCDs in their day lockers until the successful completion of their training program, at which time they will be afforded the same rights outlined above. Trainees, via their training officer, may request special consideration as outlined above.

Should you have any questions whatsoever about the expectations outlined above, please share them with your supervisors.
Personal Communication Devices

702.1 PURPOSE AND SCOPE
The purpose of this policy is to establish guidelines for the use of department-issued mobile phones and personal communication devices, and the on-duty use of such devices personally-owned by personnel.

Because of technical advances and varying manufacturer nomenclature, this policy will generically refer to all Personal Communication Devices (PCD) as such, but is intended to include all mobile phones, Personal Digital Assistants (PDA), and other such wireless two-way communication and/or portable Internet access devices.

702.1.1 PRIVACY POLICY
Any employee utilizing any computer, internet service, phone service or other wireless service provided by or funded by the Department expressly acknowledges and agrees that the use of such service, whether for business or personal use, shall remove any expectation of privacy the employee, sender and recipient of any communication utilizing such service might otherwise have, including as to the content of any such communication. The Department also expressly reserves the right to access and audit any and all communications (including content) sent, received and/or stored using such service.

702.2 DEPARTMENTALLY ISSUED PCD
Depending on an employee's assignment and needs of the position, the Department may, at its discretion, issue a PCD. Such devices shall remain the sole property of the Department and shall be subject to inspection or monitoring (including all related records and content) at any time without notice and without reason.

702.2.1 INDIVIDUALLY OWNED PCD
Employees may carry their own PCD while on duty subject to the following conditions:

(a) Carrying an individually-owned personal communication device is optional.

(b) The device shall be purchased, used and maintained at the employee's expense.

702.2.2 USE OF PERSONAL COMMUNICATION DEVICES
PCDs may be used by employees to effectively communicate with other personnel during those situations where the use of the radio is either impractical or not feasible. PCDs however, should not be used to replace regular radio communications.

(a) Hands free devices designed to facilitate communications on PCDs will not be worn by personnel where they may be seen by members of the public.

(b) Vehicle mounted hands free devices are permitted.

(c) PCD's may not be used to conduct personal business while on duty except when brief personal calls may be warranted by the circumstances (e.g. inform family of extended
hours). While employee's may use individually owned PCD's for personal business during authorized breaks, such usage should be limited as much as practical to areas where the call will not be seen or heard by members of the public, or where such use would create a potential distraction in the workplace.

While the use of departmentally issued PCDs and personally owned PCDs while on duty is limited to official business only, it is recognized that circumstances may occasionally warrant brief personal communications on such devices (e.g. inform family of extended hours). Extended or frequent use of departmentally issued PCDs or personally owned PCDs while on duty for personal use may be subject to discipline and employees may be responsible for reimbursing the Department for any charges incurred as a result of personal use.

702.2.3 USE WHILE DRIVING
The use of a PCD while driving can cause unnecessary distractions and presents a negative image to the public. Officers operating emergency vehicles should restrict phone use while driving to matters of an urgent nature and should, where practical, stop the vehicle at an appropriate location to complete their call. Officers shall not drive an emergency vehicle while using a PCD to write, send or read a text based communication.

Except in the case of an emergency employees who are operating non-emergency vehicles shall not use cellular phones or other personal communication devices while driving unless the telephone is specifically designed and configured to allow hands-free listening and talking (Vehicle Code 23123 (a)). Such use should be restricted to business related calls or calls of an urgent nature.

702.2.4 OFFICIAL USE
The use of personal communication devices, inclusive of hands free devices, may be appropriate in the following situations:

(a) Barricaded suspects.
(b) Hostage situations
(c) Mobile Command Post.
(d) Catastrophic disasters, such as plane crashes, earthquakes, floods, etc.
(e) Major political/community events.
(f) Investigative stakeouts where regular phone usage is not practical.
(g) Emergency contact with outside agency or outside agency field unit equipped with PCDs.
(h) When immediate communication is needed and the use of the radio is not appropriate and other means are not readily available.

Captain of Administrative Services Division
Chief's Secretary
Professional Standards Lieutenant

Break Room/Kitchen
The break room is available to all employees for use on breaks and lunches. There is a refrigerator, a microwave and a stove in the kitchen, and a wide assortment of vending machines in the break room.

Briefing Room
Prior to each patrol shift deploying, briefing is conducted. Briefing is a way of sharing pertinent information from each shift, covering new policies/procedures, the roll call of officers and police equipment issued.

City Hall
Most city offices are located in the City Hall building across the walkway from the police department.

The Communications Bureau
The Communications Center is the link between emergency service personnel and the public. All calls for service are received by Communications Bureau personnel, who then transmit the call over the radio to patrol officers in the field.
Computer Room
This is where all the Departments main computer bases are kept. Also located in the room are the 24-hour DAT Tape Machine, the 9-1-1 printer and the printer for the CAD system.

Detective Bureau
The Detective Bureau is responsible for investigating unsolved crimes. A Lieutenant oversees this Department.

Door Codes
There are doors in the station that have access codes. They are located in the sally port and jail. This access is primarily for officers with prisoners.

Emergency Operations Center (EOC)
The Emergency Operations Center is activated when the City of Chino experiences a large-scale emergency. Instances when the center may be opened include, but are not limited to earthquakes, floods, riots, or HAZMAT incidents. (This is the same room where daily briefings are held as well as the Citizens Academy courses)

Evidence Processing/Property Rooms
This is where evidence is logged, tagged, sealed and stored. Access to property is for authorized personnel only. The Evidence Storage Room is alarmed.

Front Lobby/Office Area
This is where Records personnel and Police Officers make contact with the public for station reports. An intercom that is a direct line to Communications is located outside the front doors, and is accessible to citizens after hours when the front doors are locked.

Gym
Equipment is supplied by the Association and available to all employees after signing a release waiver.

Jail
Chino's jail is intended to detain an arrestee to complete booking procedures and conduct any investigation interviews or testing needed, i.e. alcohol breath test or blood draw. Once completed, the prisoner will either be released or transported to West Valley Detention Center in Rancho Cucamonga for housing.

Mailboxes
Mailboxes are assigned to all employees. The mailboxes are located in the Mailroom.

Men's Locker Room
All male employees will be issued a locker.
Patrol Lieutenant’s Office
The Patrol Lieutenants offices are assigned to the Patrol Lieutenants. The Patrol Lieutenants are responsible for all patrol functions and related personnel issues. The Patrol Lieutenants report directly to the Operations Captain.

Patrol Supervisor’s Office
All Sergeants assigned to the patrol division share the Patrol Supervisor’s Office. The Patrol Sergeants report directly to the Patrol Lieutenants.

Phone Equipment Room
The phone equipment room is where all Department phone lines originate

Records Bureau
The Records Bureau is responsible for the maintenance and security of all police records. They receive and disseminate information in the form of reports, logs and/or teletypes. The Records Bureau is open to the public Monday through Friday 0730-1730. The Records Bureau is closed for walk in business on weekends and holidays. However, Records personnel are on duty and will release vehicles on the weekends and holidays. Citizens requiring assistance are able to use the Code Blue Intercom located just outside the front doors and will reach the Dispatch center. There are two civilian supervisors in Records. The Technical Services Bureau Lieutenant manages Records.

Report Writing Room
This room is set up for officers to complete paperwork. Officers are able to obtain report forms stored in the cabinet and there is also a printer and a copier/printer that the officers can use.

Restroom Locations
There are male and female restrooms, in the hallway just south of the Records Storage room next to the drinking fountain. There is a second set of restrooms just north of the Watch Commander’s offices west of the stairwell. There are restrooms located in both the male and female locker rooms as well.

South Parking Lot/West Parking Lot
Parking restrictions: The South Parking lot is reserved for police emergency vehicles. Any open stall is provided for after hours parking for civilian personnel. It is preferred that civilian personnel use the stalls against the west wall if one is available. The west parking lot areas marked in RED are for official police and city owned vehicles. Areas marked in YELLOW are visitor parking spaces and are not intended for employee parking. Areas marked in GREEN are for vehicle inspections only. The remaining unmarked spaces are available for employees to park.
Station Access
Every new employee is issued a proximity card that will allow the employee access into the building. Each employee’s access card is set up to allow him or her access into various areas within the station. Depending on the employee’s job description there will be restrictions on the proximity card.

Superior Court
This is the primary reviewing court and the court charged with dispensing justice in all matters of misdemeanors and minor offenses. The Superior Court in Chino presides over all preliminary hearings of felony cases before those cases are forwarded to the Superior Court in Rancho Cucamonga.

Traffic Services Office
This unit is responsible for investigating traffic accidents, any traffic related cases, and coordination of special events.

Women’s Locker Room
All female employees will be issued a locker.

Copy Machines
There are three copy machines. There is one located in the mailroom, one in Records, and one in the report writing room. Use of the copier is strictly for work related items.

Message formats

Message formats in general

HTML
Microsoft Outlook Rich Text
Plain text

Microsoft Outlook can send and receive messages in three formats: HTML, Outlook Rich Text, and plain text. You can specify one of these three as a default message format that you want to use for most messages, but you can always switch to a different format for an individual message. The message format that you specify is independent of your choice of message editor. For example, you can choose Microsoft Word as your default message editor and then specify a message format to use in Word.

Return to top

HTML
Choose HTML if you want these features: text formatting, numbering, bullets, alignment, horizontal lines, backgrounds, HTML styles, and Web pages. You can use Stationery and Signatures with HTML, but if you're using Word 2000 as your e-mail editor, you must specify those options in Word. HTML is not available if you're using Word 97 as your e-mail editor.

Return to top

Microsoft Outlook Rich Text
Choose Outlook Rich Text if you want these features: text formatting, bullets, and alignment. You can use Signatures with Outlook Rich Text, but if you're using Word as your e-mail editor, you must create the signature in Word. If you're sending mail over the Internet, not all recipients will be able to see Outlook Rich Text formatting.

Return to top

Plain text
Plain text messages include no formatting. If you send most of your mail over the Internet, you may prefer to use plain text rather than adding formatting that recipients might not be able to see. When you receive plain text messages, you can specify a font to use when you read them. You can use a signature in plain text, but without text formatting.

Return to top

Note  When you reply to a message, Outlook uses the format the message was created in!!! For example, if you reply to a message sent to you in plain text, Outlook creates a plain text response. However, if you prefer, you can switch to a different format for your reply. Select the message you want to reply to, click Reply, and then, in the reply message, on the Format menu, click the message format you want to use.
Learn how to choose a default message format, and turn on or off Word as your e-mail editor.

**Study Guide for Week 2**

**Abbreviations**
When you are on the phone and a person comes in to the lobby, make eye contact and indicate that you will be with them in a moment.

When you are speaking with someone in the lobby and the phone rings, say "excuse me" and answer the phone. Get preliminary info and either transfer or put the call on hold. If you won’t be able to get right back to the call, ask a Cadet or other Records personnel to help with the call.

When you are on the phone and another line rings, say "excuse me", "I need to answer another call." When answering the new call, get preliminary info and either transfer or put the call on hold. Note which line each call is on.

If you can’t get back immediately to the call on hold, go back on the line and let the person know you are still checking and ask them to continue to hold. If it will take a while, ask for a call back number and be sure to call them back as soon as possible.

When the lobby has 2 or 3 people waiting, check to see if there is anyone you can help immediately. Ask who was first and indicate that you will help them; then ask each person how you can help. If you can handle it quickly, do so. If it appears you will need help, ask a Cadet or other Records personnel to assist.
Plug the CyraPhone into an Analog phone line (our phones will not work in Digital outlets).

1. **Pick up the LEFT handset and wait for a dial tone.** If you need to use the speakerphone, leave the handsets in their cradles and press the blue Speaker button.

2. **Press the 1st gray button on the phone labeled ACCESS to contact the interpreter network.** After the system has answered, wait for the account number voice prompt.

3. **Press the 2nd gray button labeled ACCOUNT/PIN #.** This will enter your Account number and PIN automatically.

4. **If the language you need is listed on the short language chart on the top of the phone,** press the blue LANGUAGE button and the one-digit number associated with the language.

   **Otherwise, follow one of the voice prompts to select a language:**

   - **Press ‘1’ to select a language by its 3-digit language code.** If you have the CyraCom language list with all of the languages we provide and their corresponding 3-digit language codes, (i.e. German is 057, Spanish is 060...) press ‘1’, and then enter the 3-digit code of the language you need.

   - **Press ‘2’ to select a language by its English spelling.** If you don’t know the 3-digit language code, press ‘2’ to select a language by its spelling. Enter the first three letters of the English spelling of the desired language on the telephone keypad. If there are multiple languages for each spelling, our system will let you choose the correct one.

   - **Press ‘3’ to select a language using Operator Assistance.** If you don’t know how to spell the language or if you don’t know what language the person speaks, press ‘3’ and you will be connected to a CyraCom operator. The operator will enter the code for the language you need.

5. Once you have selected and confirmed your language choice, the call is on its way to an interpreter. You now will be prompted about an additional 3rd party. Simply ignore this prompt, unless you need to add in an additional party to your call (in addition to the interpreter). Follow the 3rd party prompts only if you need to conference in an additional party.

6. When connected to the interpreter, give them your name, title, and a brief explanation of the call. This will help the interpreter understand the situation and enable them to assist you more effectively.

7. When you are ready, have the non-English speaker pick up the RIGHT handset to start the conversation. If the third party option was chosen, press 1 to connect the third party.

8. When finished with the conversation, hang up both handsets or depress Speaker button.

---

If you are having difficulty operating the CyraPhone, please contact our Customer Service at 1-800-481-3289 or press the CUSTOMER SVC button.
To operate the CyraPhone:

Before placing a call you need to determine the language to be interpreted and its corresponding three digit code.

- Look on the CyraPhone Language chart to see if there is a corresponding number (1-9) button for the desired language.
- If the language is not on the CyraPhone, look up the language code on the attached language list.
  (Knowing the language code will speed up your connection time. The system will allow you to speed dial through the menus)

1. Plug the CyraPhone into an Analog phone line. Pick up the LEFT handset and wait for a dial tone. If you need to use the speakerphone, leave the handsets in their cradles and press the blue Speaker button.

2. Press the blue button labeled “A” for “ACCESS” to contact the interpreter network.

3. After the system has answered, wait for the account number voice prompt, then press the blue button labeled “B” for “ACCOUNT/PIN”. This will enter your Account number and PIN automatically.

4. When the system accepts your account number and PIN you will be prompted to “Press 1 to select the language by its language code....”

5. Follow the voice prompts instructions.
   - If the desired language is on the phone’s language chart, simply press the gray "/"/" button and the corresponding key number (1-9), or enter the 3 digit language code from the language list (i.e. German is 057).
   - If you don’t know the language code, follow the voice prompt instructions to select a language by its spelling and enter the first three letters of the English spelling of the desired language on the telephone keypad (i.e. Spanish would be spa or 772).
   - You may add a third party to your call by simply following the voice prompts. If you intend to call a third party you must choose this option upon hearing the prompt. Once the interpreter is on the line, you can no longer choose this option.
   - Please have the telephone number for your third party ready to speed up the process.

6. When connected to the interpreter, give them a brief explanation of the call. This will help them understand the situation and enable them to assist you more effectively.

7. When you are ready, have the other party pick up the RIGHT handset to start your conversation. If third party option was chosen, press one (1) to connect the third party.

8. When finished with the conversation, hang up both handsets.

9. If you are having difficulty operating the CyraPhone service at 1-800-481-3289 or press DIAL 0 for Cust.

<td>Enter into RMS Citation/Summons module White: to court Pink: to file Yellow: to officer Amendment: see below</td>
</tr>
</tbody>
</table>

2. Accessing the Citation Module

- Locate and click on the “Modules” tab at the top left of your RMS home screen
- Select “Citation/Summons” under the Traffic Header
- To add a new citation, click the ADD tab
3. Adding a Citation

- Once you have selected add, enter the basic information and name candidate (Remember, if the certified name is not available to use, you will be prompted to create a new master name record for your defendant.)
- Once you arrive at the CHARGE tab, select the tab and a new screen will appear. Select the ADD tab to add a new violation
See the screens below for reference:

- Citation #
- Date/Time
- Misdemeanor (if applicable)
- Traffic
- Name (LN, FN)
- Select CHARGE (seen below)
- Add the speeds when entering a speeding violation. Do not fill in the Lidar portion as it will only except 3 characters
- Complete remaining fields based on info found on paper cite

*For cites with multiple charges listed, select ADD and enter each additional charge
- Complete remaining fields in accordance with paper cite and Records procedure.
- The location of the violation must be in Chino. Remember that the location entry will GEO-VERIFY when you tab past the CITY field. If the address is in Chino, it will auto populate the remaining address fields. If not, you must answer YES to the popup to use the location anyway.
- Select the court and manually type in the address

4. Adding a Vehicle
• Upon saving your initial cite info, you will be prompted to add a vehicle to the citation
  Select YES
  If you select NO, you will need to enter the vehicle manually by clicking the
  VEHICLE tab at the top right corner of the module screen.

• The following screen will appear. Select ADD to enter a vehicle.

• Add a vehicle by candidating OR entering a new vehicle record. Complete all fields with
  info provided on cite (this includes registered owner*) and select SAVE. Select EXIT to
  return to your citation module screen.

Ex of completed vehicle screen:
5. Citation Amendments

A large part of our responsibility as Records Technicians is to identify errors and improve accuracy of entries. This is often the case with citations. When a citation is written and turned in to Records with errors, an amendment will need to be completed. Amendments are paper documents that are sent to the court and the defendant to document necessary changes (i.e. incorrect court date or missing license plate #).

There are two ways cites can be amended:
1. An officer kick back can be completed
   OR
2. A qualified tech can complete an amendment in-house

Routing:
White copy of amendment – stapled to white cite
Yellow copy of amendment – mailed to defendant
Pink copy of amendment – stapled to green cite

Notes:

6. Adding Tracking Codes

- Select the TRACKING tab at the top right of your citation module screen. The following screen will appear:

- Select ADD and complete appropriate fields. Once complete, select SAVE tab.

Track Code:
A picklist to reflect routing to a court
OR
a kick-back to an officer

Notes Field:
The track code will auto populate this. However, you must add your
ID #
AND
the send date.

Completed Tracking screen:
*For incomplete cites and kick-backs, the tracking code will be entered as such. Once the amendment has been made to the citation entry (edit and tab out of field to save), you will need to go back into tracking and ADD the appropriate codes as seen below:

Example of **kick-back** tracking code added.

Single action reflected at bottom of screen.

Example of **amended** citation with updated tracking code ADDED.

Two actions reflected at bottom of screen.
7. Process and route the citation

Per current Records procedure:

- Scan and attach any amendments
- White slip to appropriate court (Misdemeanors to Rancho/Infractions to Fontana)
- Green slip to citation file

8. Citation Dismissal

1. Provide a Recommendation to Dismiss a Citation Memo form to the officer to complete the reason for dismissal.
2. In the event that all copies of the citation are attached, staple the cites and memo and place in file, if not proceed to #3.
3. Upon return of Memo & citations, confirm the officer has completed the Memo and verify a supervisor has signed it.
4. Complete the Recommendation to Dismiss form on the S drive & print on a letterhead, make two copies.
5. Send original letterhead with original cite(s) to the court.
6. Mail a copy of the letterhead to the defendant.
7. Attach original memo to the last copy of letterhead and place in file.

Miscellaneous Citation Notes:

Court Hearings:
Fontana (Infractions): Mon-Fri @ 0800
Rancho Cucamonga (Misdemeanors): Mon-Thurs @ 0800

Fix-It Tickets:
Often defendants are cited for “correctable” offenses which require correction to reduce the penalty fee. The defendant must have the original cite and the box labeled “correctable” must be checked for us to place a call for service and have it signed off by an officer. Additionally, the defendant must have the corrected vehicle and/or documentation present at the time of sign off. CPD charges $34.00 cash only for this service. Defendants are still responsible for proving correction to the court and paying a processing fee once we have signed off.

Data Ticket/TicketWizard/Citation Processing Center:
CPD contracts with a third party cite processing company to collect payment on certain typos of cites (generally parkers). Customers may often approach the front desk with requests to “pay their tickets”. However, we do not accept payment for any citation at the counter. The third party company often has instruction and/or contact info on the cite/letter which we are to refer the customer back to.

Parking cite sign-offs
On many occasions we have had people come into the lobby with the request of “signing off their parking tickets”. The citations are usually VC4000(a) citations. Data Ticket will send out a letter to the cited party asking that they have the citation signed off and they will reduce the fee to 10.00. Records Supervisors will be handling the responsibility of the sign offs. Please do not have an Officer called in from the field to have this done. If one of us is not available, please advise the person to return on day that one of us is here. We are also not going to charge for this request. What will be required is the proof of current registration in hand as well as the ticket.

You will need:
- The original citation
- Proof of registration
- A Vehicle Inspection form (provided by Records - in the cabinet by the front desk)
Municipal Code Violations

On 7-1-14, city council voted to accept an amended municipal code enforcement procedure allowing officers and code officials to now issue administrative citations for all municipal code sections. This does not remove the option to enforce such section with a criminal complaint (notice to appear), but adds the new method of enforcement as an option which may at times be easier and more effective.

Effective immediately, we may use administrative citations for municipal code enforcement when deemed appropriate by the issuing officer.

If you do not receive a courtesy notice, you are still required to comply with the terms below by the appearance date.

**WHAT TO DO:**

You are required to appear at court for a misdemeanor traffic violation. For all violations, your court date is on the front of the notice to appear. Have the citation with you when contacting the court. In all traffic cases, you must do one or more of the following for each violation:

- **Pay the fine (bail):**

- **Correct the violation:**
- **Contact the violation:**
- **Request traffic school (traffic cases, when applicable):**

In some cases, you may be charged an amount in addition to the bail amount and the case may be turned over to a collection agency. (Pen. Code § 1214.1.)

1. If you do NOT contest the violation:

a. **(Pay the bail amount)**: Contact the court for bail information. You will not have to appear in court. You will be convicted of the violation, and it will appear on your record at the Department of Motor Vehicles (DMV). A point count may be charged to your DMV record and your insurance may be adversely affected.

b. **(Traffic school)**: You may be able to avoid the point count by completing traffic school. You must pay the bail amount as a fee, and you may have to pay other fees. Contact the court to request traffic school.

c. **(Correctable violations)**: If the "yes" box is checked on the front of your ticket, the violation can be corrected. Upon correction of the violation, a new enforcement officer, or an authorized inspection station agent sign below. (Pen. Code § 40616.) Registration and driver license violations may also be corrected as outlined on an officer at the DMV or by a clerk or deputy clerk of a court. The violation will be dismissed by the court after PROOF OF CORRECTION and payment of a transaction fee are presented to the court by mail or in person by the appearance date. Violations of Vehicle Code section 16628 (automobile liability insurance) will be dismissed only upon (1) your showing or mailing to the court evidence of financial responsibility valid at the time this notice to appear was issued, and (2) your payment of a transaction fee.

Field Contact Module

Used to enter field interview data
Assignment: Front Desk

Special Considerations

Field Contacts can be completed by patrol officers in the field through MOBLAN.

What this means for RECORDS:
These FCs will go to 2nd level review and will have to be checked for obvious errors

Field Contacts can also be completed by patrol officers the traditional way (i.e. paper cards)

What this means for RECORDS:
These FCs will need to be entered into RMS with particular attention paid to 602L Advisals

2nd Level Review of Field Contacts
See notes on 2nd Level Review.
Verify accuracy of facts by cross-referencing Calls for Service, the officer narrative, and CLETS.

Entering Field Contacts

1. Accessing the Field Contact Module
   - Locate and click on the "Modules" tab at the top left corner of your RMS home screen
   - Select "Field Contact" under the Investigators header. The Field Contact Module screen will appear.
   - To add a new field contact record, select ADD.

1. Adding a Field Contact (Page 1)

   ![Field Contact Module Screen]

   - **Date/Time**
   - **Reason** - To determine reason, refer to officer narrative
   - **Address** - This will geo-verify that the loc in in our jurisdiction
   - **Name** - Enter name (LN, FN) and tab past DOB to candidate
     
     Whether you are creating a new record or using an existing one, be sure to update changed personal info in the MASTER NAME RECORD (i.e. residence, tattoos, employer, etc.) Do not add physical characteristics from checkboxes until you reach page 2 of the FC. Physical characteristic entry is described below.

   - **Add vehicle if present** - Enter license plate and tab to candidate
   - **Admitted Record** - Appropriate to check if mentioned in the officer narrative
   - **Remarks** - Enter officer narrative AND event number
   - **Officer/Supervisor**

   - **SAVE**
2. Adding a Field Contact (Page 2)

Page 2 will primarily be used to enter distinct characteristics (similar to checkboxes in former system). These will be entered into the Physical Characteristics field seen below:

Use the menu to scroll and select defining characteristics. Add and remove these by clicking the arrows located in the center of the screen. Once complete, select OK.
3. Linking multiple people to one FC

FC's will no longer be issued case or FI numbers. They will however, be issued "EVENT NUMBERS" by dispatch.

When multiple cards are used to document multiple involved parties during a contact, you will need to enter each individual card as its own FC (this is the same procedure from our former system). In order to link these parties all to one contact, you will utilize the event number.

- **EVENT NUMBERS** are to be included in the officer narrative notes on page 1 (as seen above).
- These numbers will connect all involved parties
- The number must be entered exactly as it is found on ALL related FC cards

**Why this is important:**

To see involvement for an FC, you must search the EVENT NUMBER in the notes field to see all involved parties.

4. 602 Advisals and ALERTS

When RECORDS receives an FC card for a 602L Advisal, an alert must be placed on the involved party's Master Name Record to track their activity.

To complete this process, do the following:

- Access Master Name Record for involved party (Ex: Doe, John) and add an ALERT.
- Select ALERT tab.
- Select ADD and complete the fields accordingly:

![Image of Name Alerts window]

**ALERT:** Select 602L ADVISAL

**ACTIVE DATE:** Date of FC

**APPROVED BY:** Your name here

**NOTES:** Enter "602L @" followed by the location at which they received the advisal. Include the individual's name, DOB, and the case #. Tab out and save.

***Each time you receive another 602L FC for the same individual, enter the location in the NOTES section following the same format. DO NOT attempt to add another alert.***

This will track the individual's activity and officers will have the ability to identify multiple advisals at one or many locations.

CRIMINAL LAW

Criminal law deals with crimes. Crimes are defined as illegal acts, which are punishable by fine, imprisonment, or removal from public office, or a combination thereof. Criminal law deals with injury to the State or to the people of the State. The criminal court then passes a sentence of imprisonment and/or fines as established by State law. Only the State, acting through the courts, can impose fines or imprison a violator. Fines are paid to the State. Crime victims do not have a right to the fine, however, through Victim-Witness programs, specified victims may receive some form of compensation.

Civil law deals with non-criminal legal proceedings such as marriage, divorce, adoption, custody, contracts, lawsuits, etc. Proceedings that prove injury to the individual can result in restitution or compensation for loss or injury.

There are many instances where the distinction between injury to the individual or the “people of the state” is not clear. However, when the victim is interested in recovering their loss, or damages, recourse is through the civil court. If the victim desires prosecution, and there is a statute or law that applies to the situation, it is a matter for law enforcement.

It is the responsibility of the law enforcement agency to determine if a crime did occur. However, it is the decision of the District Attorney’s office as to whether or not to prosecute a case. The court decides the disposition of the case.
CRIME CATEGORIES

The following definitions do not indicate the actual complexity of the law. Crimes may be plea-bargained from Felony to Misdemeanor. Sometimes a misdemeanor will become a felony if there is a previous conviction for the same or similar offense.

Administration Code
This contains sections related to Fish & Game, Harbor and Navigation, and other regulations.

Business & Professions Code (B&P)
This is the body of law that regulates the ethics of the business profession regarding truth in advertising, marketing, and controls sales of certain substances. They also contain statues concerning the sales of alcoholic beverages.

Felony
A crime that is serious in nature, which can be punished by imprisonment in State Prison and fines over $1,000.

Health & Safety Code (H&S)
This is a body of laws that regulate food and drugs (including controlled substances).

Infraction
A minor offense, which can be punished by fines.

Misdemeanor
A crime which can be punished by up to, but not exceeding, one year in the County Jail and up to $1,000 in fines.

Municipal Code
This body of ordinances has been enacted by the City Council to regulate the actions of the persons within a given City boundary, which may not already be covered by another code.

Penal Codes
The California Penal Code (PC) contains the majority of the statutes that are enforced by Peace Officers. It also contains laws that establish Peace Officers' powers, jurisdiction, and training. However, there are several other California codes that contain sections enforced by Police Officers.
Vehicle Code (CVC)
This is a body of laws that regulate vehicular traffic within the State of California.

Welfare & Institutions Code (WIC)
This is the body of regulations regarding the treatment of children or others that are unable to care for themselves. This authority directs all juvenile criminal affairs. Included in the WIC are statutes regarding child neglect, incorrigibility, and delinquency.
COMMON REFERRALS

Code Enforcement
Violations of the Chino Municipal Code are often referred to Code Enforcement. Their office is located in City Hall.

Internal Affairs
Most internal affairs investigations begin with some type of citizen complaint. At no time will an employee interrogate a caller as to the specifics of the complaint. Once the Patrol Supervisor has received a complaint, it may be turned over to Internal Affairs.

Phone Reports
Officers or PSOs may take a police report over the phone, when appropriate

Records
The Records Bureau will handle phone calls that are general questions about reports or how to get a copy of a completed report.

PROPER IDENTIFICATION OF FIELD UNITS

Chino Police Department is a part of the West End Communications Authority (WECA). Our Department, along with the other members of WECA, share the 800 MHz radio system. With this shared communication system, each department is assigned a number. That number must precede all of the unit call signs. This is to aid in identifying agencies when a mutual aid situation occurs and multiple agencies are on one channel. A letter followed by a 1 or 2 digit number further identifies our department’s call signs. Below is a list of the letters used to identify Chino PD units.

INTRODUCTION

Uniform Crime Reporting (UCR) is a city, county, and state law enforcement program. This Program provides a nationwide view of crime based on the submission of statistics by law enforcement agencies throughout the country. The crime data are submitted either to a state UCR Program or directly to the national UCR Program which is administered by the Federal Bureau of Investigation. The success of UCR is a testimony to the dedication and cooperative attitude of law enforcement officials in this Nation.

Historical Background
In the 1920s, the International Association of Chiefs of Police (IACP) envisioned the need for statistics on crime in our Nation. The Committee on Uniform Crime Records of the IACP developed and initiated this voluntary national data collection effort in 1930 and still continues to advise the FBI on its conduct of the UCR Program. During that same year, the IACP was instrumental in gaining congressional approval which authorized the FBI to serve as the national clearinghouse for statistical information on crime. The National Sheriffs' Association in June, 1966, established a Committee on Uniform Crime Reporting to serve in an advisory capacity and to encourage sheriffs throughout the country to fully participate in the Program. The FBI, through the UCR Program, has collected and compiled data for use in law enforcement administration, operation, and management, as well as to indicate the fluctuations in the level of crime in America.

Collection of Crime Data
Crime data are, for the most part, collected on a monthly basis by the UCR Program. The FBI provides report forms, tally sheets, and self-addressed envelopes to many local agencies who complete the forms and return them directly to the FBI. The information submitted to the UCR Program should be only a portion of the data a law enforcement agency tabulates for its own effective and efficient use.

Many states have developed information collection systems of which UCR is a byproduct. These states gather data from the law enforcement agencies within their boundaries and forward the UCR statistics to the FBI. The FBI assembles, publishes, and distributes the data to contributing agencies, state UCR Programs, and others interested in the Nation's crime problem.

In recent years, the development of state UCR Programs has streamlined the collection of UCR data. An important aspect of the transference of this responsibility from the FBI to a state agency is a guarantee of consistency and comparability in the data forwarded by the state Program. Following are the conditions under which a state Program is developed and by which it must operate:

1. The state Program must conform to the national Uniform Crime Reports' standards, definitions, and information required. These requirements, of course, do not prohibit the state from gathering other statistical data beyond the national collection.

2. The state criminal justice agency must have a proven, effective, statewide Program and have instituted acceptable quality control procedures.

3. Coverage within the state by a state agency must be, at least, equal to that attained by Uniform Crime Reports.

4. The state agency must have adequate field staff assigned to conduct audits and to assist contributing agencies in record practices and crime reporting procedures.

5. The state agency must furnish to the FBI all of the detailed data regularly collected by the FBI in the form of duplicate returns, computer printouts, and/or magnetic tapes.

6. The state agency must have the proven capability (tested over a period of time) to supply all the statistical data required in time to meet national Uniform Crime Reports' publication deadlines.

To fulfill its responsibilities in connection with the UCR Program efforts, the FBI continues its internal procedures of editing and reviewing individual agency reports for both completeness and quality; has direct contact with individual contributors within the state when necessary in connection with crime reporting matters, coordinating such contact with the state agency; and as deemed necessary, conducts training programs within the state on law enforcement records and crime reporting procedures. These training sessions are, of course, coordinated with the state agency. Should circumstances develop whereby the state agency does not comply with the aforementioned requirements, the national Program may reinstitute a direct collection of Uniform Crime Reports from law enforcement agencies within the state.
4. All reports are checked to see that the crime classification conforms to the uniform classification of the offenses. That is, all offenses reported to the UCR Program, regardless of what the offense is called at the local or state level, should conform to the UCR classification of offenses.

5. The offense reports on crimes cleared by arrest or exceptional means are noted as cleared.

6. Arrest records are complete, special care being taken to show the final disposition of the charge.

7. Records are centralized; records and statistical reports are closely supervised by the administrator; periodic inspections are made to ensure strict compliance with the rules and regulations of the local agency relative to records and reports.

8. Statistical reports conform in all respects to the UCR standards and regulations.

Small agencies may request the FBI to send free forms entitled Register of Incidents/Offenses (Daily Log) and Register of Persons Charged (Arrest Sheet) that facilitate maintaining a permanent record for small operations. Preparation of crime reports from these forms is a simple matter. The forms probably will be inadequate in a department with 15 or more officers. Their use in smaller departments is a matter of preference.

Law enforcement agencies desiring to improve their records procedures will be interested in the Manual of Law Enforcement Records. The FBI will send law enforcement agencies the manual free of charge upon request.

Offenses Known to Law Enforcement

The monthly Return A collects a count of the number of criminal acts which become known to law enforcement. Offenses cleared by arrest or other means as defined in this handbook also are counted and included on the monthly Return A.

Not all crimes readily come to the attention of the police—embezzlement, for example. Some serious crimes occur infrequently, such as kidnapping. Therefore, for practical purposes, the reporting of offenses known is limited to the following crime classifications because they are the crimes most likely to be reported and which occur with sufficient frequency to provide an adequate basis for comparison. They are also serious crimes by nature and/or volume. The chosen offenses are:

1. Criminal homicide
2. Forcible rape
3. Robbery
4. Aggravated assault
5. Burglary
6. Larceny-theft
7. Motor vehicle theft
8. Arson

These offenses will be discussed in detail in the following chapters.

Persons Arrested

The number of persons arrested for all violations except traffic offenses is compiled from monthly returns submitted by the contributing agencies. The age, sex, race, and ethnic origin of both adult and juvenile arrestees are recorded for the purpose of computing arrest trends and volume.

Jurisdiction

Throughout the United States there are several thousand law enforcement agencies, some of which have overlapping jurisdictions. To be certain that an offense or arrest is not counted more than once by overlapping jurisdictions, the following guidelines have been developed:

1. Police report offenses that occur within their city jurisdiction.
2. County and state law enforcement agencies report offenses which take place in the county outside the jurisdiction of the city.
3. Agencies report only those arrests made for offenses committed within their own jurisdictions.
4. Likewise, the recovery of property is reported only by the jurisdiction from which it was stolen.

Note: The purpose of these jurisdictional guidelines for reporting crime statistics is to accurately depict the nature and volume of crime in a particular community, not to claim or take "credit" for the number of investigations, arrests, etc.

For crime reporting, cities having their own police departments generally send in their own figures. However, crime data for smaller locales may be combined with those for larger agencies, e.g., sheriffs' offices and state police. This practice most often occurs in rural or unincorporated places employing constables, town marshals, or other officers who infrequently report Crime Index offenses. A special form has been devised for the use of law enforcement officers in these small locales to report offense data to the sheriff's office or another larger law enforcement agency. This document is the Report of Offenses.
CHAPTER I
DEFINITIONS—PART I OFFENSES

The Part I offenses are as follows:

1. Criminal homicide:
   a. Murder and nonnegligent manslaughter
   b. Manslaughter by negligence
2. Forcible rape:
   a. Rape by force
   b. Attempts to commit forcible rape
3. Robbery:
   a. Firearm
   b. Knife or cutting instrument
   c. Other dangerous weapon
   d. Strong-arm—hands, fists, feet, etc.
4. Aggravated assault:
   a. Firearm
   b. Knife or cutting instrument
   c. Other dangerous weapon
   d. Hands, fists, feet, etc.—aggravated injury
5. Burglary:
   a. Forcible entry
   b. Unlawful entry—no force
   c. Attempted forcible entry
6. Larceny-theft (except motor vehicle theft)
7. Motor vehicle theft:
   a. Autos
   b. Trucks and buses
   c. Other vehicles

Program: Part II offenses will be discussed in a later section.

When classifying an offense, it should first be determined if it is one of the Part I offenses and then into which category it would be included. The following pages of definitions and explanations will aid in the classifying of these offenses. Unusual situations will arise in this effort, and not all can be covered in this handbook. In classifying the unusual situations, the nature of the crime should be considered along with the guidelines provided. If assistance is needed, communicate with the UCR Program, Federal Bureau of Investigation, Washington, D.C. 20535.

Counting the number of offenses after they have been classified is referred to as scoring. A suggested method of handling information in preparation for submission of the Monthly Return of Offenses Known to the Police (Return A) is to classify and score the Part I offenses in a tally book. These books have the same format as the monthly Return A and are available without charge from the national UCR Program. Tally forms can be made from an agency's offense reports on a regular basis during the month and then transferred to the monthly reporting form. Remember:

CLASSIFY AND SCORE FROM THE RECORDS OF CALLS FOR SERVICE, COMPLAINTS, AND/OR INVESTIGATIONS. OFFENSE COUNTS ARE TO BE RECORDED, NOT FINDINGS OF A COURT, CORONER, JURY, OR DECISION OF A PROSECUTOR SINCE THESE CRIME STATISTICS ARE INTENDED TO ASSIST IN IDENTIFYING THE LAW ENFORCEMENT PROBLEM.

General Note—To aid in the understanding of the examples in this section, a knowledge of the six columns of the Return A reporting form is necessary. The columns are as follows: (See pages 47-48 for additional comments.)

Column 1: Classification of Offenses—The criminal act offenses are printed on the form in this column.

Column 2: Offenses Reported or Known to Police—Enter a count of offenses reported or otherwise known to the department.

Column 3: Unfounded—Enter the total number of reported offenses that are false or baseless.
In cases of justifiable homicide, a second offense must also be scored. Enter in the appropriate classification, the crime the felon was committing at the time of death, and clear this offense by exceptional means. See examples 1.a.-8 and 9, page 9.

Note: For each criminal homicide reported on the Return A, it is required that the Supplementary Homicide Report (SHR) form be completed. The SHR provides details regarding the victim and offender, their relationship, the weapon used, and the circumstance of the murder. In addition, it is an excellent quality control mechanism. Refer to pages 63-65.

Examples:
1.a.-1 A berserk gunman shoots and kills three pedestrians. The offender is subdued and placed under arrest. (Three offenses, three offenses cleared by arrest.)

1.a.-2 Joe and Jim, while playing cards, get into an argument. Joe comes at Jim with a broken bottle and Jim pulls a gun and kills Joe. Jim is arrested and claims self-defense. (One offense, one offense cleared by arrest.)

1.a.-3 A neighbor discovers an infant who has been beaten. The neighbor rushes the infant to the hospital. Later, the infant dies as a direct result of the injuries. Investigation reveals that the mother is responsible. The mother is not considered mentally competent and the district attorney does not wish to prosecute. (One offense, one offense cleared by exceptional means.)
1.a.-8 Justifiable Homicide. A police officer answers a bank holdup alarm and surprises the robber coming out of the bank. After firing at the police officer, the robber is shot and killed. The officer is charged in a court of record as a matter of routine in such cases. (One offense of murder, unfounded, and one offense of robbery, cleared by exceptional means.)

1.a.-9 Justifiable Homicide. When a gunman entered a store and attempted to rob the proprietor, the felon was shot and killed by the storekeeper. (One offense of murder, unfounded, and one offense of robbery, cleared by exceptional means.)

1.b. Criminal Homicide—Manslaughter by Negligence

Definition—the killing of another person through gross negligence.

As a general rule, one offense is counted for each death caused by the gross negligence of another. Not included in this category are deaths of persons due to their own negligence; accidental deaths not resulting from gross negligence; and traffic fatalities. However, arrests in connection with traffic fatalities should be counted on the Age, Sex, Race, and Ethnic Origin of Persons Arrested form opposite "Manslaughter by negligence." The findings of a court, coroner's inquest, etc., do not affect classifying or scoring; these are law enforcement statistics.
Examples:

2.a.-1 A complaint was received from a victim that, when leaving work late one night, she was attacked in the company parking lot by an unidentified male and forcibly raped. (One offense, not cleared.)

This category includes muggings and similar offenses where no weapon is used, but strong-arm tactics (limited to the use of personal weapons such as hands, arms, feet, fists, teeth, etc.) are employed or their use is threatened to deprive the victim of possessions.

Examples:
3.a.-1 A man comes to a victim's door and asks to use the phone. After being admitted to the residence, he pulls a gun and demands money. He takes the victim's money and flees. (One offense, no clearance).
3.b.-1 A man was walking down the street when an assailant grabbed him and held a broken bottle to his throat. While the assailant was attempting to remove the victim's wallet from his pocket, the police arrived. The assailant was arrested. (One offense, one clearance by arrest.)

ments used to club or beat victims. Also include in this category attacks by explosives, acid, lye, poison, scalding water, burning, etc.

4.d. Assault—Hands, Fists, Feet, etc.—Aggravated Injury

Classify in this category only the attacks by use of personal weapons such as hands, fists, feet, etc., which result in serious or aggravated injury. The seriousness of the injury is the primary factor to consider in establishing whether the assault is aggravated or simple. The assault will be aggravated if the personal injury is serious, e.g., broken bones, internal injuries, or where stitches are required. On the other hand, it is a simple assault if the injuries are not serious (abrasions, minor lacerations, or contusions) and require no more than usual first-aid treatment. These simple assaults are to be scored as 4.e., other assaults.

4.e. Other Assaults—Simple, Not Aggravated

Include in this category all assaults which do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which there were no serious or aggravated injuries to the victims. Simple assault is not within the Crime Index—it is a Part II offense but is collected under 4.e. as a quality control matter and for the purpose of looking at total assault violence.

Score such offenses as simple assault, assault and battery, injury caused by culpable negligence, intimidation, coercion, and all attempts to commit these offenses. For other examples, refer to page 79.

An Aid to Classifying Assaults

Careful consideration of the following factors should assist in classifying assaults:

1. The type of weapon employed or the use of an object as a weapon;
2. The seriousness of the injury;
3. The intent of the assailant to cause serious injury.

Usually, the weapons used or the extent of the injury sustained will be the deciding factors in distinguishing aggravated from simple assault. In only a very limited number of instances should it be necessary to examine the intent of the assailant.

Prosecutive policy in a jurisdiction should not control classification or reporting of law enforcement offense data on the Return A. It is necessary that assaults in each jurisdiction be examined and classified according to the standard Uniform Crime Reporting definitions, regardless of whether they are termed felonies by local definitions. In an aggravated assault situation where the victim later dies, count one offense of murder on the Return A for the month in which the death occurred and delete the aggravated assault previously recorded. (See page 42 on adjustments.)

Examples:

4.a.–1 Joe and Sally had an argument. Sally later returned with a gun and shot Joe, attempting to kill him. Joe recovered and Sally was prosecuted for attempted murder. (One actual offense, cleared.)

| 4.c.-2 During a neighborhood altercation, a resident, John, hits neighbor Don and Don's wife with a tire iron. Don suffers a minor bruise but his wife has a concussion from a blow to the head. John is arrested. (Two actual offenses, both cleared.)

4.d.-1 Jack comes in drunk and during an argument with his wife breaks her jaw. Jack is arrested but his wife refuses to prosecute. (One offense, one offense cleared.)
These offenses are classified as burglaries in UCR and must be counted as larcenies for reporting purposes. Thefts from automobiles whether locked or not; shoplifting from commercial establishments; and thefts from telephone booths, coinboxes, or coin-operated machines are all classified as larceny.

5. Theft—Offenses.

Theft offenses. Of course, if these thefts are accompanied by unlawful entry of a structure, a multiple offense exists and the burglary would be scored. A telephone booth is not considered a structure under the UCR definition.

5.a. Burglary—Forcible Entry

Count all offenses where force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony. This act includes entry by use of tools; breaking windows, doors, transoms, or ventilators; cutting screens, walls, or roofs; and where known, the use of master keys, picks, unauthorized keys, celluloid, or other devices which leave no outward mark but are used to force a lock. Burglary by concealment inside a building followed by an exiting of the structure is included in this category.

5.b. Burglary—Unlawful Entry—No Force

The entry in these burglary situations involves no force and is achieved by use of an unlocked door or window. The element of trespass to the structure is essential in this classification, which includes thefts from open garages, open warehouses, open or unlocked dwellings, and open or unlocked common basement areas in apartment houses where entry is committed other than by the tenant who has lawful access. If the area entered was one of open access, thefts from the area would not involve an unlawful trespass and would be scored as larceny.

5.c. Burglary—Attempted Forcible Entry

Count in this classification those situations where a forcible entry burglary is attempted. If an entry is actually made, the offense should be classified as 5.a. Include unlawful entry—no force when a perpetrator is frightened off while entering an unlocked door or climbing through an open window. If an actual trespass occurs, classify as 5.b. Law enforcement experience is the determining factor in deciding whether force or no force was used in gaining entry.

A forcible entry or unlawful entry where no theft or felony occurs but where acts of vandalism, malicious mischief, etc., are committed is not scored as a burglary provided investigation clearly establishes that the unlawful entry was for a purpose other than to commit a felony or theft. For the definition of vandalism, refer to page 79.

rented to outsiders. Residential property not meeting these criteria are classified "Other Residential." For arson reporting purposes, temporary living quarters such as hotels, motels, inns, etc., are included in the "Other Residential" category.

The remaining structural subclassifications address nonresidential property and are self-explanatory.

8.H.-I. Arson—Mobile

"Motor vehicles" by UCR definition must be self-propelled and run on land surface but not on rails. For example, automobiles, motorcycles, motor scooters, and snowmobiles are motor vehicles, while trains, boats, and airplanes are not and should be classified as "Other Mobile Property."

SCORE ONE OFFENSE FOR EACH DISTINCT OPERATION

8.J. Arson—Other

This classification encompasses arsons of all property not classified as structural or mobile. Wilful or malicious burnings of property such as crops, timber, fences, signs, and merchandise stored outside structures should be included.

Classifying Arsons

The key to proper arson classification is the establishment of the point of origin of a fire. If an individual willfully burns a vehicle parked adjacent to a home and the subsequent fire spreads and destroys the home, the appropriate arson classification would be "Mobile—Motor Vehicle." In cases where a positive determination of the point of origin is undetermined or in instances of multiple points of origin, the structural, mobile, or other category of property which suffered the greatest damage due to the fire should be scored.

Note: Because of the unique nature of the crime of arson, a separate reporting form (Monthly Return of Arson Offenses Known to Law Enforcement) is utilized for the collection of data regarding this offense. The form, the various property classifications appear in column 1. Columnar headings 2 through 6 are identical to those on the Return A, but two additional columns are contained on the arson form. Column 7 is used to enter the number of arson offenses which involved structures (A.-G. only) that were uninhabited, abandoned, deserted, or not normally in use. In column 8, the estimated value of property damage for all arson offenses scored in column 4 is listed. These two additional columns are discussed further in the section of this handbook addressing the specific reporting forms (page 57).

Examples:

8.A. As the result of fire, several rowhouses are destroyed. Investigation reveals an actual arson offense occurred in one rowhouse; however, the fire spread to several adjacent homes, causing $200,000 total damage. (One offense, no clearance.)

CHAPTER II
CLASSIFYING AND SCORING PROCEDURES

Classifying is determining the proper crime categories in which to report offenses in UCR. Classification is based on the facts of an agency's investigations of crimes.

Scoring is counting the number of offenses after they have been classified and entering the total count on the appropriate reporting form.

Classifying and scoring are the two most important and essential functions that must be performed by a participant in the Uniform Crime Reporting Program. The data provided are based on these two functions and are only as good as agencies' efforts to follow the guidelines of the Program.

Classifying

Generally, attempts to commit a crime are classified as though the crimes were actually completed. The only exception to this rule applies to attempts or assaults to murder wherein the victim does not die. These incidents should be classified as aggravated assaults rather than murders.

In a previous section of this handbook, the UCR Part I offenses have been precisely defined. The exceptions to the definitions also have been discussed and must be considered when classifying criminal acts to guarantee the accuracy and consistency of reports from all agencies in the Nation.

Hierarchy Rule

The experience of law enforcement agencies in handling UCR data shows that for the most part offenses of law occur singly as opposed to many being committed simultaneously. In these single-offense situations, it must be decided whether the crime is one of the Index offenses, and if so, it would be scored accordingly. However, if several offenses are committed at the same time by a person or a group of persons, a different approach must be used in classifying and scoring. The law enforcement matter in which many crimes are committed simultaneously is called a multiple-offense situation in this Program. As a general rule, a multiple-offense situation requires classifying each of the offenses occurring and determining which of them are Part I crimes. The Part I offenses involved must then be located in the listing which follows:

1. Criminal homicide:
   a. Murder and nonnegligent manslaughter
   b. Manslaughter by negligence

2. Forcible rape:
   a. Rape by force
   b. Attempts to commit forcible rape

3. Robbery:
   a. Firearm
   b. Knife or cutting instrument
   c. Other dangerous weapon
   d. Strong-arm—hands, fists, feet, etc.

4. Aggravated assault:
   a. Firearm
   b. Knife or cutting instrument
   c. Other dangerous weapon
   d. Hands, fists, feet, etc.—aggravated injury

5. Burglary:
   a. Forcible entry
   b. Unlawful entry—no force
   c. Attempted forcible entry

6. Larceny-theft (except motor vehicle theft)

7. Motor vehicle theft:
   a. Autos
   b. Trucks and buses
   c. Other vehicles

Arson:
   a. Structural
   b. Mobile
   c. Other

Locate the offense that is highest on the list, score that offense, and ignore the other offenses involved in the incident. The Hierarchy Rule, which requires counting only the highest offense on the list and ignoring all others, applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts. An exception to the rule is arson, which is discussed later in this chapter.

Example:

Incident: During the commission of an armed bank robbery, the offender strikes a teller with a butt of a handgun. The robber runs from the bank and steals an automobile at curb side.

Classification of this incident: Robbery, aggravated assault, and motor vehicle theft are three Part I offenses apparent in this situation. Each of these offenses should be located on the listing, and by doing so, it is seen that robbery is the crime highest on the list. Therefore, this incident will be classified as robbery, one offense scored accordingly, and all of the other offenses ignored.

CHAPTER VI
DEFINITIONS—PART II OFFENSES

The Uniform Crime Reporting Program offenses are divided into two groupings—Part I and Part II crimes. Arrest data are collected on both Part I and Part II offenses, and it is as important and essential to maintain uniformity in the data collection of persons arrested as it is in the offense data collection conducted for Part I crimes only.

The Part II offenses encompass all other crime classifications outside those defined as Part I earlier in this publication. In November, 1932, the UCR Program adopted a Standard Classification of Offenses for the compilation of criminal statistics. This classification was devised and adopted in order that law enforcement, judicial, and penal statistics might be uniformly compiled in terms of a single classification of offenses. The definitions of the Part II offenses that follow include some of the offense titles described in local and state law. These titles have been included as descriptive data to aid in determining the offenses that should be included or excluded in each classification.

9. Other Assaults

Assaults and attempted assaults where no weapon was used or which did not result in serious or aggravated injury to the victim are included as other assaults.

Examples of local jurisdiction offense titles which would be included in “other assaults” are:

Simple assault;
Minor assault;
Assault and battery;
Injury by culpable negligence;
Resisting or obstructing an officer;
Intimidation;
Coercion;
Hazing; and
Attempts to commit the above.

10. Forgery and Counterfeiting

In the majority of states, forgery and counterfeiting are treated as allied offenses. Placed in this class are all offenses dealing with the making, altering, uttering, or possessing, with intent to defraud, anything false in the semblance of that which is true. Include:

Forging wills, deeds, notes, bonds, seals, trademarks, etc.;
Counterfeiting coins, plates, banknotes, checks, etc.;
Possessing or uttering forged or counterfeited instruments;
Erasures;
Signing the name of another or fictitious person with intent to defraud;

- System Login and Desktop Personalization
- Management of your personal employee information record
- RMS Help
- Searching existing records in multiple modules
- Viewing existing records in multiple modules
- Printing existing records in multiple modules
- Updating Tracking statuses in multiple modules

The following pages describe each of these functions in a generalized manner. Notes sections are available throughout to document job-specific details.
# Introduction to the RMS Home Screen

## RMS Login
- User Name: Your Chino PD identification number (Format: ####)
- Password: Same password used to login into your workstation desktop

## Changing Your Password
- Despite the presence of an option to “Change Password” under your name line, your login password cannot be changed through RMS.
- The password for RMS can only successfully be changed when your desktop login password is changed. This is a function enabled by Active Directory.

## Who Am I
- This feature can be accessed by clicking your name at the top right corner of the RMS home screen
- Opening this feature allows you to view and/or edit your personal employee record

![Employee Information Screen](image-url)
Basic Home Screen Features

Window A: Default Home Screen

- Blue tabs at the top of the screen allow access to different modules, tools, etc. The options made available to you are based on your individual user rights. If an option is gray or not responding when you attempt to select it, it is unavailable and requires additional rights that may not be included in Base User rights.

- The space labeled "My Modules" on the left side of your home screen is used to select your most commonly used modules and set them as easy-access icons. This is achieved by right-clicking the title and selecting "Add to My Modules". To remove icons from My Modules, right click and select "Remove from My Modules".

- The panels that appear on the left of the home screen include: Search Menu, My Modules, and Involvement. These can be collapsed into smaller vertical tabs by clicking the small pin icon on the top right of each individual screen. Right-clicking will also provide the option to make docked windows float anywhere on the screen. Hovering and dragging on window borders will allow you to change window dimensions to fit your preferences.

Module Overview

In RMS, modules can be used independently to keep information consolidated in one place or they can be used to link information in a network of involvement. Modules can be accessed through the menu bar at the top of your RMS home screen or by single clicking any module icons you may have added to “My Modules”. The most commonly-used modules are listed below along with brief descriptions of their functions.

<table>
<thead>
<tr>
<th>Module</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Incident</td>
<td>You use the Incident module to enter and maintain incident reports. It is also used for state IBR/UCR reporting. You can add, search, print, view, and export incident records from the Records Management System (RMS) database. The Incident module uses the Involvement, Evidence, Case Management, Tracking, Vehicle, Property, Related Names, and Report subsystems of RMS.</td>
</tr>
<tr>
<td>Master Names</td>
<td>The RMS name database stores a single name that is used each time the name is associated with a record in the system, such as an incident or field contact. This provides you with the most current information for each name, as well as a complete history for each entry.</td>
</tr>
<tr>
<td>Master Vehicle</td>
<td>You use the Vehicle module to search for vehicle records entered through the Incident, Arrest, or Related Vehicle modules. However, if there is no related incident or arrest record, you can enter vehicle information directly into the Vehicle module. The Vehicle module uses the Tow and Impound, Involvement, Merge, Tracking, Related Names, and Report subsystems of Record Management System (RMS).</td>
</tr>
<tr>
<td>Arrest</td>
<td>You use the Arrest module to enter and maintain arrests by agency and search for and print existing arrests. As a result of the Arrest module being linked to the RMS involvement subsystem, you can establish relationships between the arrestee record and records in other modules such as the Names and Vehicles modules.</td>
</tr>
<tr>
<td>Warrant</td>
<td>The Warrant module allows you to manage warrants efficiently within the agency. Many features are supported, such as linking a warrant to an incident/investigation case, warrant tracking, and the Records Management System (RMS) involvement subsystem. The Warrant module uses the Involvement, Barcode, Tracking, Related Names, and Report subsystems of RMS.</td>

USE THIS STAMP FOR THIS SECTION

CHINO POLICE DEPARTMENT
13250 CENTRAL AVENUE
CHINO, CALIFORNIA 91710
The Chino Police Department has stored your vehicle. An Administrative Fee of $190.00 is assessed on all vehicles ordered stored by personnel of the Chino Police Department. Payment of this fee at the Police Department will be required prior to the release of your vehicle. Payment is to be in the form of cash, cashier’s check, or money order only.

The Administrative Fee is based upon the average amount of time spent by Police Department personnel ordering, waiting for the tow truck, completing, approving, and processing the storage and notification forms, and releasing the vehicle back to you. The Administrative Fee assessed by the Police Department is not related to any charges owed to the Tow Company for the towing and storage of your vehicle. Those charges remain between you and the Tow/Storage Company.

If your vehicle has been impounded for 30 days, per California Vehicle Code sections 14602.6, the following are the legal exceptions to the 30-day Hold:

1. When the vehicle was stolen (you will be required to sign a stolen vehicle report under penalty of perjury).
2. When the vehicle is subject to “bailment” and is driven by an unlicensed employee of a business establishment, including a parking service or repair garage (I.E. a parking valet).
3. When the license of the drive was suspended or revoked for an offense other than those included in Article 2 (commencing with Section 13200) of Chapter 2 of Division 6 or Article 3 (commencing with section 13350) of Chapter 2 of Division 6 (I.E. Child Support Non-Payment).
4. If the driver of the stored vehicle has obtained a valid driver’s license, and has proof of insurance prior to the end of the thirty day storage period the vehicle may be released to the registered owner.

Hardship is no excuse and will not be entertained as a reason for early release of a vehicle.

Any questions regarding this notice may be directed to the Chino Police Department Records Unit at (909)334-3001.

Transients
When completing and/or editing entries on transients, be sure to include this distinction in their NAME record by selecting YES in the Transient field pick-list. There is no need to include the word “Transient” in the address line. (Window A)

Additionally, you will need to include a Transient distinction on Page 2 under “Additional Addresses”. Include any address documented as LKA or a place the transient is known to frequent. (Windows B & C)
Business Records
Business records should be entered as seen below. If a phone number is provided for the business, you may include it in the “Work Phone” field.
Incidents Involving Domestic Violence

When entering and/or editing incidents involving DV, be sure to use the security flag feature and Domestic Violence field to indicate confidentiality. Also ensure that the victim's "Restricted" box is checked in the related names.
Involvement - Officers
When an Officer is involved in an incident and it is necessary to list them in a report, their NAME record should be used – not their employee record.

As seen below, the name record contains very limited information. All that is to be included is the last name and ID number (in first name field). Please DO NOT edit or add to these records.

Kick-Backs
Records will still be utilizing Cite Amendment forms and Held Slips.

Cite amendments will be completed as they always have been EXCEPT for the addition of tracking codes in RMS. See Cite notes for more information.

Held Slips will be used to document the need for corrections on reports that have already been accepted into RMS via Moblan and Daily Records Review. The corrections will come in the form of a supp. The supp will come through RMS electronically and will automatically be linked to the incident.

When a Held Slip is necessary, please complete the following steps:
1. Complete paper Held Slip
2. Assign a Tracking Code of “Returned for Correction”
3. Submit to Officer

When the supp has been turned in and the report is completed
1. Update the Tracking Code to “Complete”
Entering Property/Evidence

*Entering property and evidence will primarily be the responsibility of the reporting officers*

Adding Property/Evidence to an Existing Incident

- Access the Incident module for which you would like to add property/evidence
- Select the Property tab

![Incident / Investigation View]

- Select ADD

![Case: 1402326 CPD Related Property [Add]]
Questions to Ask BEFORE Entering Data:

1. Is the item:
   - **Evidence** (items taken for investigative purposes)
   OR
   - **Property** (items booked for safe-keeping, stolen items, recovered items, lost/found items)

2. If evidence, which charge is it linked to?

3. If property, WHO does the item belong to?

Step One: ADD property data into the incident

- **Property Code**: select type of item
- **Description**: auto-populates based on prop code
- **Status**: select “Evidence” from pick-list
- **Date**: should auto-populate with date of report
- **Offense Code**: this pick-list should reflect the charges entered in the original incident. If the charge is missing, return to incident to verify you are in correct case.
  (Example: the above offense code is 18F for “Possess marijuana more than one ounce”. Therefore, it has been selected to tie the drug evidence to it.)

- Check the Evidence box
- Designate officer (whoever originally booked the property per the report)

  Use report info and narrative to complete remaining fields if applicable.
Property
Adding data for non-evidence property

If you are entering property, be sure to enter the victim number to designate that the property belonged to that individual or business.

DO NOT mark the evidence box when entering stolen or recovered property.

- **Enter the Victim #**: This should correspond with the owner of the property designated in the report. Once this number has been entered, the owner field will auto-populate.
  *Be considerate of cases in which multiple victims are listed*

- **Property Code**: select type of item
- **Description**: auto-populates based on prop code
- **Status**: select from pick-list
- **Date**: should auto-populate with date of report
- **Offense Code**: this pick-list should reflect the charges entered in the original incident. If the charge is missing, return to incident to verify you are in correct case.
  *(Example: the above offense code is 06C for “Burglary-Commercial-Shoplift”. Therefore, it has been selected to tie the stolen property to it.)*

- **Designate officer (whoever originally booked the property per the report)**

Use report info and narrative to complete remaining fields if applicable
For Stolen and Recovered property:

After you have entered the property as stolen, you can go back into that entry and change the status to recovered without having to complete another separate entry. The status change will automatically create a record to account for the recovery.

When you change the status, you will be prompted to overwrite (as seen below) Select YES.

![Notice]

Do you want to change the status to RECOVERED?
No = Error correction only

You will see that another entry has been completed with the recovered status.

How to Inquire on a Gun
Hello Techs,

Here are some tips for entering guns:

When entering any gun, make sure to include the type of gun and also the subtype of gun. Here is an example of an entry just for evidence. Use the same format for entering guns that are found or for safekeeping guns. When entering a safekeeping gun, use the Evidence code and note "safekeeping" in the misc field.
When entering a crime gun, please enter the gun info and crime gun on the same screen. Enter the gun as an evidence gun with all of the required fields.

Enter the crime gun requirements on the same screen. Make sure to enter the NCIC offense code and the officer's name as last name, first name. In the misc field, write out the offense for the NCIC offense code.
We must also enter any possessor (suspect) information we have.
If you have any questions at all regarding gun entries, please feel free to ask.

Thank you,

Arrest Cycle Breakdown
Arrested and Released and No Accusatory Pleading is Filed – Deemed Detention Only Per CA PC849.5

Background: In August, 2014 Santa Barbara PD Records Supervisor was subpoenaed to testify in the matter of John J. Schmidt et al, v. County of Santa Barbara, CHP et al. regarding the Santa Barbara Police Department's processing of arrest, detention and disposition records and related documents in the event that an individual once arrested is not later prosecuted for the same offense(s). Schmidt brought the action against the CHP on behalf of himself and all persons similarly situated. The action sought a writ of mandate to compel the CHP to comply with sections CA PC 849.5 and 851.6, subdivision (b). The trial court certified the class action and granted Schmidt writ petition.

In August, 2016, the Court of Appeals upheld the trial court decision and held that if a person is arrested, but no accusatory pleading is filed with a court, the arrest shall be deemed a detention only. Further, the arresting agency must issue the arrested person a detention certificate and that the official criminal records shall delete any reference to an arrest and refer to the action as a detention only.

What this means for Chino Police Department: Upon the receipt of the DA Rejection Summary and the Adult Disposition of Arrest and Court Action from the District Attorney’s office, the Records Technician assigned to the CIB and Traffic Unit will complete the following:

- Complete the Adult Disposition of Arrest and Court Action with proper rejection code supplied by the District Attorney’s office. Once completed this form gets mailed to DOJ to update the subject’s RAP sheet.
- Generate a letter from the SunGard Records Management System / Word Document (A template is currently being created by SunGard and PRS Acuna) to send to the subject.
- Rename the “Offender” to “DA Rejection” in the RMS Incident Module. This will update the subject’s involvement type when their name is ran in RMS.
• Delete the "Offender" in the RMS Arrest Module. – This will not occur until the MACR/UCR is completed for the month.
  This is the only way the involvement of "arrest" will be removed from the Records Management System.

• The RMS Closure will remain as is – "closed by arrest"
• The "arrest" reference will not be redacted from the Incident Report. The "offender" has the option to petition the court to seal the record.
• These records will be updated retro to 01/01/2017 01/01/2012 and letters will be mailed out.

Greetings:

An amendment to PC 290.024 now requires a person who is convicted of a felon on or after January 1, 2017, to register his or her Internet identifiers. The intent of this law is to focus on monitoring those offenders who committed crimes through their use of internet. This law will only apply to sex-registrants if: the offender used the internet to commit the crime and this crime was a sex crime which upon conviction would require the offender to register; the offender committed a crime related to human trafficking; the offender committed a child pornography related offense. The Judge will then order the offender to register their internet identifier information upon each registration appointment. If the offender later changes/adds to their social media identifiers, they are required to notify our agency within 30 days so we may make the appropriate changes. Should they not comply they will have committed and be charged with a misdemeanor.

What this means for Records!

Records will be alerted through CSAR to obtain the information for the Registrant. In the same manner you print the 290 forms you will now see an option to print the “Internet Identifiers Registration Form.” (See attached example above)

Please fill out the required forms and once completed, Contact Detective Carlson as he is required to meet with the Registrant to ensure the information is accurate and the requirements are understood. Det. Carlson will then sign/ date the form once speaking with the Registrant. In the event that Carlson is not available contact Detectives Pry, Johnson or Guillen as they will be aware of the procedures and have authority to sign the form as well.
Records will then need to enter all the information in CSAR. Select the correct identifier "type" and "subtype" for each identifier and enter each identifier along with the corresponding start dates. If the registrant indicated that they do not have Internet identifiers, select "No Internet identifiers declared."

This law will in the end create a slight increase in workload in processing these specific registrants, but will give our agency the opportunity to better monitor and arrest the certain offenders should they choose not to comply.

If you have any questions at all, please don't to ask! 😊

Best Regards,
HS 11590 Registrant

RESTRAINING ORDERS

Restraining orders are issued by Superior Court and are entered into CLETS by the designated court staff. It is also their responsibility to enter the proof of service if the restrained person is in court. We can enter proof of service into CLETS if we serve a restraining order. EPO orders are entered by law enforcement.

There are different types of restraining orders. Check the Restraining Order System (ROS) manual for a list.

The most common orders are:

**Emergency Protective Orders** (EPO) are issued temporarily on weekends/night when the court is closed. This can be issued for domestic violence, child abuse/abduction, stalking, workplace violence, civil harassment, and elder or dependent abuse. This order expires up to 5 court days or 7 calendar days. The protected party should go to the court the next business day to file a Temporary Restraining Order (TRO).

**Temporary Restraining Orders** (TRO) are for Domestic Violence and Elder or Dependent Adult Abuse. The orders end on the hearing date.

**Order After Hearing** (OAH) are issued on the hearing date. If there is no expiration date, the orders end 3 years after the issued date.

A copy of the restraining order must be provided to the restrained person. (The restrained person must be advised of the terms of the orders.) Since the restrained person must stay away from the protected person, the protected person may elect another person or agency (marshal/sheriff/police) to serve the restraining order paperwork to the restrained person. Once this is completed, the protected person will file the proof of service with the court. The protected person must have a Proof of Service on file with the designated court. (Law Enforcement should also have a copy of the restraining order and the proof of service on file. The court will stamp all valid orders.)

The orders remain in effect even if the protected person invites or contacts the restrained person. The protected person cannot be arrested for inviting or contacting the restrained person. The orders can be changed only by another court order.

## California Law Enforcement Telecommunications System (CLETS) Information Form

**Important Notice:** This form MUST NOT become part of the court file. It is confidential and private. It can be used by the court or law enforcement to enter a restraining order into CLETS or to locate the restrained person to serve a restraining order.

To the Protected Person: Complete this form. Ask the court clerk if the court will have your order entered into California's restraining order computer system. If the clerk says yes, give this form to the clerk. If the clerk says no, give both this form and your restraining order to your local law enforcement agency. That way, law enforcement officers can enforce your order.

Did you know that juvenile reports cannot be handed out to the parent of a juvenile. Not only that but the victim him or herself can not request a juvenile report. There are basically only two ways to obtain a juvenile report. 1. By petitioning the court/judge 2. Obtaining it through the defense attorney.
JUVENILE COURT CONFIDENTIALITY POLICY

The confidentiality of juvenile records is established under sections 827 and 828 of the Welfare and Institutions Code and section 1423 of the California Rules of Court. The Presiding Judge of the Juvenile Court (or designee) has exclusive jurisdiction over juvenile case files and documents and the responsibility to maintain their confidentiality. It is the purpose of this policy to protect the interests of the minors and their families in the confidentiality of any case files and documents involving minors involved in the justice system, in accordance with the requirements of the sections 827, 828 of the Welfare and Institutions Code and case law and to provide a reasonable method for release of records and documents.

**Definition:** In accordance with section 1423 of the California Rules of Court, a Juvenile Case File is defined as follows:

1. All documents filed in a Juvenile Court Case
2. Reports to the court by probation officers, social workers of child welfare services and court appointed special advocates
3. Documents made available to probation officers, social workers of child welfare services programs and court appointed special advocates in preparation of reports to the court
4. Documents relating to a child concerning whom a petition has been filed in juvenile court, which are maintained in the office files of probation officers, social workers of child welfare services programs and court appointed special advocates
5. Transcripts, records or reports relating to matter prepared or released by the court, probation department or child welfare services program
6. Documents, video or audio tapes, photographs and exhibits admitted into evidence at Juvenile Court proceedings.

**Inspection:** Only persons specified in sections 827 and 828 of the Welfare and Institutions Code may inspect Juvenile Court records without authorization from the court. Juvenile Court records may **not** be obtained or inspected by civil or criminal subpoena. Authorization for any of other person to inspect, obtain or copy juvenile court records must be ordered by the Juvenile Court Presiding Judge or a judicial officer designated by the Juvenile Court Presiding Judge.

Juvenile Court case files can be inspected only by the following persons or agencies:

Revised 07-16-01
1. Court personnel

2. The district attorney, a city attorney or city prosecutor authorized to prosecute criminal or juvenile cases under state law.

3. The minor who is the subject of the proceeding.

4. His or her parents or guardian.

5. Attorneys for the parties and judge, referees, other hearing officers, probation officers and law enforcement officers who are actively participating in criminal or juvenile proceedings involving the minor.

6. The superintendent of designee of the school district where the minor is enrolled or attending school.

7. Members of the child protective agencies as defined in section 11165.9 of the Penal Code

8. The State Department of Social Services and their authorized legal staff or special investigators.

9. Members of children’s multidisciplinary teams, persons or agencies providing treatment or supervision of the minor.

10. A Judge assigned to a family law case with issues concerning custody and/or visitation, family court mediators assigned to the case and a child custody evaluator.

11. Juvenile Justice Commissions

Authorization for any other person to inspect, obtain or copy juvenile court records must be ordered by the juvenile court presiding judge or a judicial officer designated by the juvenile court presiding judge. The requesting person must file a Petition for Disclosure of Juvenile Court Records with the Juvenile Court.

If a Juvenile Court case file, or any portion thereof, is privileged or confidential pursuant to any other state or federal law or regulation, the requirements of that law or statute shall prevail. Prior to the release of the Juvenile Court case file or any portion thereof, the court
shall give notice of the petition to all parties involved in the Juvenile Court. Each party will have an opportunity to object and have a hearing, if requested.

Any intentional dissemination of Juvenile Court files by the receiving agencies or persons to any other persons or agencies is a misdemeanor punishable by a fine not to exceed five hundred dollars ($500.00).

**Case files of deceased dependent child(ren):** Case files pertaining to a deceased child who was within the jurisdiction of the Juvenile Court section 300 shall be released to the public by order of the Presiding Juvenile Court Judge or designee following the filing of a Petition for Disclosure of Juvenile Court Records and ruling on the same. If the court orders the information released, any information regarding the child or that could identify a child other than the deceased child shall be redacted from the case file prior to its release, absent a specific order to the contrary.

**Reports of Law Enforcement Agencies:** WIC 828 and Rules of Court 1423(g) Except for records sealed under sections 389 or 781 of the Welfare and Institutions Code or 1203.45 of the Penal Code, any information gathered by a law enforcement agency *relating to the taking of a minor into custody* may be disclosed without court authorization to another law enforcement agency, including school police or security or to an agency with a legitimate need for the information for the disposition of the case. All others requesting to inspect or obtain reports *relating to the taking of a minor into custody* shall file a Petition for Disclosure of Law Enforcement Agency Records Concerning a Child (JV-575).

2013. No such accident report shall be used as evidence in any trial, civil or criminal, arising out of an accident, except that the department shall furnish upon demand of any person who has, or claims to have, made such a report or upon demand of any court, a certificate showing that a specified accident report has or has not been made to the department solely to prove a compliance or failure to comply with the requirement that such a report be made to the department.

Juvenile records are those records pertaining to an individual under the age of eighteen (18).

Welfare and Institutions Code Section 827 gives the juvenile court control over the release of all juvenile information to be disclosed to third parties by any law enforcement official. The T.N.G. court decision (T.N.G. v. Superior Court San Francisco [1971] 4c.3d 767) describes two methods for the release of this information:

- referring the third party to the juvenile court or the probation department; and
- releasing the information directly, pursuant to your local superior court T.N.G. order.

A current copy of your county’s T.N.G. order should be obtained through the juvenile court. It is recommended that a current/updated copy be requested from the presiding judge every year.

The decision of Wescott v. Yuba County (1980) ruled that juvenile records retained after informal disposition at the law enforcement level become the equivalent of court records and remain within the control of the juvenile court or probation department. Therefore, third party release of this information is to be handled in the same manner as information stemming from a formal proceeding.

Under California Vehicle Code Section 20012, accident reports taken by a local law enforcement agency must be released to the driver or drivers involved, any person injured in the accident, and the owners of the vehicles or property involved and their authorized representatives. The entire contents of the report can be released, including photos, video tapes, interview tapes, witness statements and diagrams.

The exception to release is all collision coding data determined by statistical means rather than through physical evidence (Vehicle Code Section 20015). If a juvenile is involved in the accident, consult your local T.N.G. Order.
The receipt of information from the California Law Enforcement Telecommunications System (CLETs) is restricted to criminal justice agencies (Government Code Sections 15153, 15163, and 15165, and CLETs Policies and Procedures Section 1.4.7). These sections restrict the CLETs network to official law enforcement purposes and the official business of any public agency. To maintain a connection with the CLETs network, a law enforcement agency must comply with CLETs regulations, maintain security of the equipment, perform security clearances on personnel using the system and provide user training. Restricted information from this system includes DMV, CJIS, NCIC and all other files accessed through CLETs.

Criminal Offender Record Information (CORI) is summary criminal history information compiled by criminal justice agencies for the purposes of identifying criminal justice offenders. The data includes a summary of arrests and dispositions at the federal, state and local level. Date-specific, single-incident information is not in CORI.

State and local CORI is used in the apprehension of criminal offenders by district attorneys in determining criminal charges, by probation officers in preparing pre-sentence reports for the court and in supervising probationers, by judges in determining sentences, and by county jails and state prisons.

CORI is also used to determine eligibility for some types of employment, licensing and certification.

Local agency records personnel have daily contact with CORI when requests for information from officers are received. Records supervisors are required to train the staff in the laws pertaining to the release of CORI and the criminal/civil liabilities for misuse of CORI.

The agency executive determines which of the staff within the organization shall have access to CORI. State law requires that criminal justice agencies submit applicant fingerprint cards or Live Scan to the Department of Justice (DOJ) for all employees who have access to CORI.

Penal Code Section 13300(c)(10) authorizes local law enforcement agencies to provide local summary criminal history information to a public entity when the information is needed to assist in screening prospective concessionaires.
(b) Record checks shall be conducted on all personnel hired after July 1, 1975, who have access to the computer system, its terminals or the stored criminal offender record information.

c) Each authorized agency shall keep a record of each release of criminal offender record information from the automated system. The record shall be retained and available for inspection for a period of not less than three years from the date of release. This record shall contain the date of release, the requesting terminal identifier, the receiving terminal identifier and the information given.

**Right of Review by Subject of Record**

The subject of a California Department of Justice record has the right to obtain and review a copy of the record. The subject must complete an application (BCID 8705) and submit the form, applicant fingerprint cards and a processing fee to DOJ. The processing fee may be waived for indigent persons if they submit proof of indigence to DOJ. If the person determines that an entry on the record is in error, the Department of Justice will provide instructions on the procedures for correction (Penal Code Section 11126). Local law enforcement agencies may provide the form and instructions for this procedure.

A person also has the right to obtain a copy of his/her local record. The requesting party must complete the forms required by the local agency and pay a processing fee (Penal Code Sections 13320-13323). Figure III-5 is a sample application for local record review (page III-20).
The Authorized Agency List is published by the California Department of Justice. The list is intended as a reference for agencies to use to determine if the requesting agency is authorized to receive state or local CORI. The list is not to be used to determine if an agency should have access to local crime and/or arrest reports. The release of local crime and/or arrest reports is covered by Government Code Sections 6254(f) and 6254.5, and by local agency policy.

The Authorized Agency List contains:

- agencies that shall have access to CORI, and
- the agencies that may have access to CORI.

Penal Code Sections 11105 and 13300 describe whether the agency is placed in the "shall" or "may" category.

When state CORI is to be used for employment, licensing or certification purposes, an authorized agency must submit applicant fingerprint cards and a processing fee to the Department of Justice in order to obtain edited criminal offender record information.

Agencies outside California are placed on the list after they furnish DOJ with a copy of the law which provides the agency with the authority to receive CORI in their state.

Other entities, such as youth organizations, financial institutions and public utilities, are included in the list, together with the statutory reference that provides authority to receive CORI.

The automated criminal history information system, accessed by CLETS, is generally not used for employment, licensing or certification purposes. This restriction also applies to peace officer applicants. The Central Valley v. Younger lawsuit resulted in a decision which prevents the use of CLETS terminals for employment purposes. Applicant fingerprint cards must always be submitted to DOJ to obtain state CORI.

Legislation enacted in 1995 allows local law enforcement agencies to query the State CLETS system in order to furnish criminal history information in certain circumstances to three public agencies. Penal Code Section 11105.03 allows screening prospective residents and staff of public housing. Education Code Section 35021.1 provides that an automated check of criminal history may be completed by local law enforcement for a school district for non-certified employees. Vehicle
2. For what purpose is the CORI going to be used ("need to know")?

   a. If the CORI is to be used for a criminal investigation, both state and local CORI may be released.

   b. If the CORI is to be used for employment, licensing or certification purposes, except as allowed by statute, only local CORI may be released. The agency must submit applicant fingerprint cards and a processing fee to DOJ to obtain state CORI for these purposes. (Refer to Penal Code Section 11105.03 and Education Code Section 35021.1.)

   c. If the CORI is to be used for a civil lawsuit, a court order must be issued that describes the state or local CORI that is required.

3. When both "right to know" and "need to know" have been established, information describing the release of CORI should be entered on the CORI Release Log.

The log provides an audit trail for the release of CORI. The log must be retained for at least three years.

Information on the log should include:

   a. requestor's name and agency,
   
   b. date of release,
   
   c. type of CORI released,
   
   d. how data was transmitted (e.g., by telephone, by letter or in person), and
   
   e. name of person releasing CORI.

NOTE: Out-of-state CORI obtained through NLETs must be protected and released under the same procedures as California CORI.

If you have any questions regarding the release of state or local CORI, contact DOJ, Audits and Records Security at 916-227-3460.

A model directive for release of CORI is provided in the Model Directives Section, pages C-1 through C-5.

Use of Criminal Justice Information and Department of Motor Vehicle Record Information

As an employee of ___________________ Department, you may have access to confidential criminal records, criminal history information and/or Department of Motor Vehicle record information which is controlled by statute. This information regarding individuals may be local, county, state or federal in origin. Misuse of such information may adversely affect an individual's civil rights and violates the law.

Penal Code Section 502 prescribes the penalties relating to computer crimes. California Vehicle Code Section 1808.45 prescribes the penalties relating to misuse of Department of Motor Vehicle record information.

Penal Code Sections 11105 and 13300 identify who has access to criminal history and record information, and under what circumstances it may be released. Penal Code Sections 11141-11143 and 13302-13304 prescribe penalties for misuse of criminal history information. Government Code Section 6200 prescribes the felony penalties for misuse of public record and CLETS information. Penal Code Sections 11142 and 13303 state:

"Any person authorized by law to receive records or information obtained from a record who knowingly furnishes the record or information to a person not authorized by law to receive the record or information is guilty of a misdemeanor."

Any employee who is responsible for such misuse is subject to immediate dismissal. Violations of this law may also result in criminal and/or civil action against the employee.

BY MY SIGNATURE BELOW, I CERTIFY READING AND UNDERSTANDING THE ___________________ DEPARTMENT'S POLICY REGARDING MISUSE OF CRIMINAL RECORD INFORMATION AND DEPARTMENT OF MOTOR VEHICLE RECORD INFORMATION.

LICENSING FILES

Licensing files are those kept in fulfillment of licensing responsibilities as established by statutes and ordinances. Examples of licensing files are:

- concealed weapons permits,
- secondhand dealer licenses,
- bingo permits,
- alarm permits,
- taxicab permits, and
- masseuse permits.

These files contain personal worth and financial data necessary to determine if a license or permit is to be granted. Data containing statements of personal worth or financial data required by a licensing agency is exempt from public inspection under Government Code Section 6254(n).

REGISTRANT FILES

Registrant files are those files created when a subject reports for registration under Penal Code Section 290 (sex offender), Health and Safety Code Section 11590 (drug offender), and Penal Code Section 457.1 (arson offender). These files contain criminal offender record information. They are subject to release under the requirements outlined in the section on criminal offender record information.

CITATIONS

There is no specific statute governing the release of traffic citations. Accepted practice is to consider traffic citations as court records. Adult court records are public records and can be released pursuant to the Public Records Act. Juvenile court records are subject to the County T.N.G. court order for juvenile records.

WARRANTS

There is no specific statute governing the release of misdemeanor warrant information. Accepted practice is to consider misdemeanor warrants to be court records and, therefore, public records that can be released pursuant to the Public Record Act.

Penal Code Section 168 prohibits the release of information related to felony arrest warrant and search warrant under certain circumstances.

"...Search warrant or warrant of arrest for felony; disclosure prior to execution; punishment:

(a) Every district attorney, clerk, judge or peace officer who, except by issuing or in executing a search warrant or
III. SECURITY OF INFORMATION

INTRODUCTION

There is often confusion when dissemination and security of information are discussed. These terms may seem mutually exclusive because the law requires law enforcement to provide information the public has the right to know and need to know. At the same time, law enforcement must withhold information if the release would jeopardize an individual's right to privacy, the safety of an informant or the successful outcome of an investigation. It is the responsibility of a law enforcement agency to allow the public access to certain information. Records personnel must be aware of and apply the legal exemptions to the release of information. It is not the intent of the exemptions to shield information from legitimate scrutiny. Exemptions should not be used to avoid possible litigation. The prosecuting attorney should be consulted regarding release and discovery in criminal cases.

Each law enforcement agency should develop a written policy for record disclosures. The agency's legal counsel should review the draft policy before it is adopted.

Records managers have many types of records within their control. These records are subject to some limited access as outlined in the law which deals with each type of record. The records manager must understand which records must be released and when records may be released. This section will discuss each type of record and cite the legal parameters which authorize or exempt its release.

3. Crime Reports – shall be released to the victim of an incident or an authorized representative thereof; an insurance carrier against which a claim has been or might be made; and any person suffering bodily injury or property damage or loss as the result of the incident caused by arson, burglary, fire, explosion, larceny, robbery, vandalism, vehicle theft or a crime as defined by subdivision (c) of Government Code Section 13960.
In order to balance the individual’s right to privacy with the public’s need for information, certain exemptions to the release of information are specified in Government Code Section 6254 or interpreted by court decision.

These exemptions include:

1. Withholding disclosure of names, addresses and identifying information of:
   
a. Juveniles (under 18 years of age) – Wescott v. Yuba County (104 CAL APP 3d 103 and T.N.G. v. San Francisco Superior Court [4c 3d 767]).

   NOTE: It is recommended that the definition of “juvenile” be verified with the juvenile court judge of your county. The exemption of release of information may pertain to all juveniles or only juveniles arrested, detained or listed as suspects. Under Wescott v. Yuba County, the determination of the Appellate Court is that all juveniles are under the protection of this decision. Therefore, all identifying juvenile information contained in a report is available for public release only if the County’s T.N.G. Order authorizes such release. The presiding juvenile court judge issues the county’s T.N.G. Order.

b. Upon request, adult victims of any crime defined by Penal Code Sections 220, 261, 262, 264, 264.1, 273a, 273d, 273.5, 286, 288, 288a, 289, 293, 293.5, 422.6, 422.7, 422.75, or 646.9, or their parents or legal guardians (if the victim is a minor), may request that their names be withheld in addition to address and identifying data – Government Code Section 6254(f)(2). Pursuant to Penal Code Sections 293 and 293.5 the officer must document that confidentiality was offered to the victim, and the victim’s response.

   Figure III-1, page III-6, is an example of a controlled document.

d. Individuals taken into custody under Welfare and Institutions Code Section 5150 (dangerous or gravely disabled persons) – Government Code Section 6254(c).
2. No law enforcement officer or employee of a law enforcement agency shall disclose to any arrested person, or to any person who may be a defendant in a criminal action, the address or telephone number of any person who is a victim or witness in the alleged offense (Penal Code Section 841.5). This section does not affect the release of information contained in an accident report.

   a. The defendant may obtain necessary information through the discovery process.

   b. The attorney for a client may obtain the address and telephone number of victims and witnesses where the client may be a defendant in a criminal action in the alleged offense.

4. Information that may endanger the safety of a witness or other person involved in the investigation – Government Code Section 6254(f).

5. Information that may jeopardize an investigation, related investigation or law enforcement proceedings – Government Code Section 6254(f).

6. Any portion of a report which reflects the analysis, recommendation or conclusion of the investigating officer – Government Code Section 6254(f).

7. Confidential information provided only by a confidential source – South Coast Newspapers, Inc. v. City of Oceanside (1984).

8. Information that may disclose investigative techniques and/or procedures – South Coast Newspapers, Inc. v. City of Oceanside (1984).

10. Preliminary drafts, notes or memoranda which are not retained in the ordinary course of business – Government Code Section 6254(a).
Refusal of a Request to Provide Copies

A law enforcement agency may lawfully refuse to furnish a copy of an arrest or complaint report requested by the person who has provided the information contained in the report; however, the agency must make public certain information contained in such reports. (Attorney General's Opinion [1982]/Government Code Section 6254, this concept is more easily understood if the record is not described as the "subject's record" but rather as "the agency's record about a subject." Agencies must establish an agreement with the district attorney regarding release of criminal report/investigation information (Proposition 115).

Fees

Government Code Section 6253(b), permits a public agency to charge a fee that covers the direct costs of duplication of copies of non-exempted information or a statutory fee, if applicable.

Most fees for services established by law enforcement agencies are set by the local legislative body by resolution (City Council or Board of Supervisors); however, recent court decisions limit the fees allowable. Any agency should consult with its legal counsel if challenged.

Fees for report copies are usually determined by conducting a materials, equipment and time-in-motion study. An evaluation is made of the steps required to produce a copy, the steps are timed and an average is computed for the time required to provide a copy of an average report. This time, multiplied by the applicable salary of involved employees, determines the cost of each copy. This cost may be used as a fee recommendation to the agency head and to the legislative body.

File Security and Audit

Generally, access to and release of information from reports and other files should be limited to the records custodian and staff of the Records Section. This limited access is recommended because:
that a response to a written public request shall be in writing if it is determined that the request is denied, in whole or in part. Ms. Moman suggested that even if a request is denied it is always best to respond in writing if the request is denied in whole or in part. The “10-day” rule cannot be used as a delay tactic. There can be no delay in permitting inspection of public records.

In September of 2001 Assembly Bill 1014 was added to the CPRA. Section 6253.1(a) states that when a member of the public requests a public record, the public agency must assist the member of the public to make a focused and effective request that reasonably describes an identifiable record, to the extent reasonable under the circumstances. The agency must do the following:

1. Assist the member of the public to identify records and information that are responsive to the request for the purpose of the request.

2. Describe the information technology and physical location in which the records exist.

3. Provide suggestions for overcoming a practical basis for denying access to the records or information sought.

The requirements of 6253.1(a) shall be deemed to have been satisfied if the public agency is unable to identify the requested information after making a reasonable effort to elicit additional clarifying information from the requestor that will help identify the record.

Not everything that is stored in a computer is a public record, especially in Law Enforcement. Law Enforcement is very unique because most of the computer databases are linked into confidential and otherwise privileged information. Section 6253.9 dictates that unless otherwise prohibited by law, any agency that has information that constitutes an identifiable public record not exempt from disclosure that is in electronic format shall make that information available when requested and shall comply with the following:

1. The agency shall make the information available in any electronic format in which it holds the information.

2. The agency shall provide a copy of an electronic record in the format requested if the requested format is one that has been used by the agency to create copies for its own use or for provision to other agencies. The cost of duplication shall be limited to the direct cost of producing a copy of a record in an electronic format (i.e. diskette).

3. The requestor shall bear the cost of producing a copy of the record, including cost to construct a record, and the cost of programming and computer services whenever: 
   • The public agency would be required to produce a copy of an electronic record that is only produced at otherwise regularly scheduled intervals.
   • The request would require data compilation, extraction, or programming to produce the record.
   • Nothing in this section shall be construed to permit an agency to make information available only in an electronic format.

   There is no requirement to release an electronic record if its release would jeopardize or compromise the security or integrity of the original record or of any proprietary software.

Remember that the Act allows access to copies of records held by the government, it does not compel the assemblage or creation of new records from disparate sources of information.

Copy cost is a big area of litigation. Section 6253(b) states that a requestor may be charged either a statutory fee or the direct cost of duplication. A statutory fee is one expressly established pursuant to a statute. It generally refers to state or federal legislation not an “ordinance”. The direct cost of duplication means the cost of running the copying machine and conceivably also the expense of the person operating it. It does not include the task of retrieval, inspection, and handling. There is no fee-charging authority for mere inspection of a record.

The most frequently used exemptions are as follows:

1. Preliminary and temporary drafts, notes and memoranda
2. Pending litigation documents
3. Private personal information
4. Investigative, security and intelligence information

5. Privileged and otherwise confidential information
6. The public interest balancing test (Section 6254(f)) protects crime reports, investigative files, intelligence files, security procedures (except: crime reports may be released to victim, victim’s representative or insurance company suffering a loss)

The following information may be withheld or redacted:

- Names and addresses of confidential informants
- Any information that might endanger the safety of a witness or person involved
- Any information that might endanger the successful completion of the investigation or related investigation
- The investigator’s analysis or conclusion

Government Code Section 6254(f)(1) states that the following information shall be made public, except to the extent that disclosure would endanger the safety of a person involved in the investigation or would endanger the successful completion of the investigation:

This section does not authorize the release of the actual arrest report, however, it does authorize the release of the following arrest information:

- Full name and occupation
- Date of birth
- Color of eyes and hair
- Sex, height and weight
- Time and date of booking
- Location of arrest
- Factual circumstances surrounding the arrest
- The amount of bail set
- The time and manner of release or the location where the individual is currently being held
- All charges the individual is being held upon
- Any outstanding warrants or parole or probation holds

Government Code Section 6254(f)(2) covers specified crime calls for service—subject to the restrictions of Penal Code 841.5 may release the following information: Time, substance, and location of all complaints or requests for assistance received by an agency and the time and nature of the
response thereto, including the name and age of the victim, the factual circumstances surrounding the crime or incident, and a general description of any injuries, property, or weapons involved. **Caveat:** The name of a victim of any crime defined by Section 220, 261, 261.5, 262, 264, 264.1, 273a, 273d, 273.5, 286, 288, 288a, 289, 422.6, 422.7, 422.75 and 646.0 of the penal code may be withheld at the victim's request. It may also be withheld at the request of the victim's parent or guardian if the victim is a minor.

The following are the exceptions to the above section of 6254(f)(2):
- PC 841.5 prohibits the release of victim or witness phone/address to an arrested person or any person who may be a defendant in the alleged offense
- 293 admonishments (only the DA can have)
- No addresses shall be released in any sex, hate, and/or domestic violence records
- Article I, Section 1 (privacy, medical, confidential informant information)
- Phone numbers
- Confidential informants
- Juveniles under the age of 18
- 5150 WIC

The address of an arrested person and the address of the victim of a crime is not a public record. However, Government Code Section 6254(4)(3), subject to the restrictions of Section 841.5 of the Penal Code, states that if a requester declares under penalty of perjury that their request is being made for a scholarly, journalistic, political, or governmental purpose, they will be entitled to the information.

Section 6254(k) basically means, in effect, that any such confidentiality law automatically constitutes an exemption from disclosure under the PRA. Examples of confidentiality rules are as follows:
- 827 WIC - Juvenile Information
- 11167.5 PC - Child abuse reports
- 20012 VC - Traffic Reports
- 15633 WIC - Elder Abuse
- 11105 PC - State Summary Criminal Information
- 13300 PC - Local Summary Criminal Information
- 832.7 PC - Peace Officer Personnel Files

This training was not meant to be as comprehensive as the POST PRA Course, but Ms. Coleman's training was extensive in its presentation as an overview of the Public Records Act. It was a pleasure to have Ms. Coleman as a guest speaker.

The term does not include those records of a State or locality sealed pursuant to law from access by State and local criminal justice agencies of that State or locality.

(3)

The term "classified information" means information or material designated pursuant to the provisions of a statute or Executive order as requiring protection against unauthorized disclosure for reasons of national security.

The participant will fill out a Police Ride-Along Application and agrees to the rules, which is listed, on the back of the App. Records personnel will run the participant's driver's history, attached the printout to the application and turns it in to the Watch Commander (W/C). If requested by the W/C, Records personnel will run the criminal history (RAP) of the participant.

**Permits & Licenses:**

**ABC Letters** - Businesses/Property owners' serving/charging alcohol in an event such as a Rodeo, a party, etc will have to apply for a license from Alcohol Beverage Control. The applicant will pay a fee with the City of Chino (city hall) and brings his receipt and application to the Police Department. The HR Specialist processes the requests.

Parking Citation Appeals – A person who receives a parking citation may request his/her citation dismissed by filling out a Parking Administration—Request for Violation Review. An example is when the disabled placard was improperly displayed and was overlooked or the vehicle that is currently registered has no current tabs on the license plate and it has been cited for 4000(a)- unregistered vehicle.

Court Ordered Booking – When an officer checks the □ booking required on an arrestee’s citation, the arrestee must appear for booking on a Monday or Friday at Chino Police Department between the hours of 10:00 am and 4:00 pm prior to his/her court appearance date. To Whom It May Concern:

California Penal Code Sections 13300 and 11105 address the concerns of the public regarding their need to prove or disprove the existence of a criminal history record for purposes of immigration or naturalization. Section 13300 states that a local law enforcement agency *may* furnish local summary criminal information for this purpose. Local law enforcement agencies are *not required* to do so.

This is to certify that the Chino Police Department *does not provide* local clearance letters for the purposes of immigration or naturalization. Section 11105 of the California Penal Code provides for the California Department of Justice (DOJ) to furnish this information. Requesters will be so referred. DOJ has established an information line to offer direction for obtaining these types of clearance letters. That number is (916) 227-3832.

Should the Immigration and Naturalization Service (INS) require copies of police reports, those copies will be provided to them upon receipt of their written request. The agency should address their requests to Chino Police Department, Attn: Records Bureau, 5450 Walnut Avenue, Chino, CA 91710.

Sincerely,

Karen Comstock  
Chief of Police

VEHICLE RELEASES

STORAGES/IMPOUNDS

Find out the case number and the date the vehicle was stored. (The R/O may have the notice of storage with him/her; if not, check RMS and inquire on VEHLIC to find out the case#. If the vehicle is not in RMS, inquire in CLETS under VEH. If you are still unable to locate the information, check with your co-workers and/or the watch commander's office. The paperwork may have just been turned in.)

Advise the R/O of the release fee and let him/her know that it is cash only. Advise the R/O that the fee is for Chino Police Dept only. It does not include the towing and storage fees imposed by the tow company. The R/O will have to contact the tow company to find out its fees. The name and phone # of the tow company will be provided to him/her. Obtain the R/O's DL, vehicle registration, moving permit (if required), bill of sale, etc. (If the R/O does not have a valid DL, the R/O will have to provide a picture ID and a driver who has a valid DL.)

Pull the 180 from the tickler file. (Make sure that it is the right vehicle.)

Go back to the counter with the 180 and run the driver history (OPTION: DRIVER). Print a copy of the L1. (Attach the printout to the 180.)

Accept payment and issue a receipt. Refer to the black MUNIS book for instructions on issuing receipts.

Have the R/O and/or driver sign the 180. Don't forget that you also have to sign the 180 authorizing the release and the date.

Make a copy of the 180 (this is the vehicle release), DL, the veh registration if available, bill of sale (any other paperwork that shows ownership), moving permit, etc.
Return the DL and the paperwork to the R/O, give the receipt, the copy of the 180 and a map to show where the vehicle is stored. You may circle the location to assist the customer. The customer may then leave.

It is very important to remove the vehicle from CLETS entry once the vehicle is released. This only applies to Storages and Impounds.

Follow the VEHICLE RELEASE PROCEDURES on the bottom of the vehicle cover sheet. When completed, file the paperwork in CASE files.

**30-DAY IMPOUNDS**

Early release of 30-day impounds will be allowed under the following circumstances:

1. A decision by a Traffic Supervisor/Investigator after holding a post-storage validity hearing. (Hardship is not an excuse.)
2. Court order signed by a judge.
3. If the driver of the impounded vehicle has obtained a valid driver's license and has proof of insurance.
4. Petition by the legal owner. (REPO)

The vehicle may be released to the Legal Owner (L/O) such as a bank or car dealership or its agent, such as a reposseror, without the administrative release fee, provided all paperwork is in order. (A hold harmless letter - A signed letter on a company's letterhead stating the vehicle will not be released to the R/O prior to 30 days of impoundment by the Police Department if there is a possibility that the vehicle will be returned to the R/O and the physical location where the vehicle will be held during the 30 day waiting period.)

**RECOVERED/STOLEN VEHICLES**

There is no administrative fee for victims of recovered stolen vehicles.
