

CONNECTED THERMOSTAT

REBATE PROGRAM

College Station Utilities offers a \$30 rebate to residential customers who purchase an eligible thermostat through the Connected Thermostat Program.

Air conditioning is one of mankind's greatest creations, especially for Texans. Unfortunately, it can also be expensive. About half of your annual energy bill can be attributed to air conditioning. The thermostat that controls your HVAC system can be the key to lowering your costs.

Thanks to technological advancements, you can save energy by remotely controlling your thermostat with your smartphone. That means you can reset your connected thermostat to pre-cool your home before returning from work, or you can adjust it while on vacation.

Eligible Brands

*Nest • Honeywell • Radio Thermostat • Ecobee
Emerson • Carrier • Schneider Electric • Lux GEO
Lockstate • Trane • Hunter • First Alert*

Eligibility Requirements

- ✓ You must be a College Station Utilities electric customer.
- ✓ The thermostat you purchase must be able to communicate with an internet-connected wireless network.
- ✓ Your HVAC must be a standard system, such as a split system, package unit, mini-split system or heat pump.
- ✓ You must provide the HVAC tonnage or the square footage controlled by the thermostat on the application.
- ✓ You must provide the purchase receipt for the approved thermostat.
- ✓ Once approved, College Station Utilities will credit the rebate to your utility account.
