Water or antifreeze)  
Rat Poison  
Roofing Tar  
Swimming Pool /Hot Tub Chemicals

**To Transport Safely:** Leave in original containers, tighten caps/lids, sort separately (oil paints, pesticides and cleaners etc.) and pack upright in a sturdy box. NEVER MIX CHEMICALS OR SMOKE while handling hazardous materials.

**Unacceptable Material:** Empty Containers, Ammunition/Explosives/Fireworks (check with Wilton police), Asbestos, Batteries (any type), Biological or Infectious Waste, Commercial or Industrial Waste, Fire Extinguishers, Fluorescent Bulbs, PBC Ballast, Prescription Medicines (Free Disposal Days in Spring & Fall), Sharps or Syringes, Propane Tanks, Radioactive Waste, Smoke Detectors and Asbestos or Latex paint.

**Procedure:** **MUST STAY IN YOUR CAR.** Open your trunk, tailgate or hatchback. They will not take items from inside your vehicle. Fill out the back of the flyer with your name, full address and a list of items you are bringing. Keep it simple such as; 3 cans oil paint-2 half full/1 full, 4 spray cans of paint-3 full/1 third full, 2 gal. Gasoline, 1 bag fertilizer, 1 bucket driveway sealer- half full, 6 half empty cans of household cleaners etc. Indicate if this is your first time visit or how often you participate in the yearly event. Your information is vital to track who is coming and from which town. Volunteers will have a bag for you to drop your paper into. Thank you for your time. Be mindful of the traffic.

**Volume Determination:** The measurement of 5 gallons is equal to 1 unit. A unit is 5 gallons or 20 pounds of waste or combination of the two; partial units will be rounded up to the nearest unit. Hope this helps. The professionals will determine the volume as we are not qualified to do so. The fee for the excess **over** the free 5 gallons (1 unit) hopefully will allow everyone a chance to participate with the free allowance that was budgeted to cover the cost of this event.

Products marked Flammable, Combustible, Poison, Toxic, Corrosive, Caustic, Reactive, Irritant, Hazardous and Oxidizer are all dangerous

In the midst of the Covid-19 we are trying to make this event as safe as possible for all concerned. We appreciate your cooperation.

**NO TRASH ACCEPTED ON THIS DAY**

**MASK MUST BE WORN**

**(TURN OVER)**

**2021 Household Hazardous Waste Collection Survey**

Name: \_\_\_\_\_

Town: \_\_\_\_\_

Number of households represented: \_\_\_\_\_
