Body Camera ²	\$15.00 per case
Surveillance Video ²	\$15.00 per case
USB Storage Drive 16 GB	\$8.00
USB Storage Drive 32 GB	\$10.00

¹ If you are requesting a police report that pertains to you personally, you will receive a copy of the report with all your “personal information” contained thereon, but all other personal information pertaining to other individuals will be redacted (blacked out). This means that you must properly identify yourself when requesting a police record so that we can locate the record pertaining solely to you. You can only receive an entire, unredacted copy if you properly execute the DPPA form attesting to your eligibility for one or more of the permissible uses listed thereon, or you provide a written and notarized release signed by each person mentioned in the police report.

² Due to the large file sizes of HD video, any request that is in excess of the size of a DVD-ROM disk will require the purchase of a USB Storage drive of adequate size to fit the files. Due to various cyber-threats, malware and viruses we cannot accept outside or used storage media into our systems. USB storage drives supplied by the Pleasant Prairie Police Department will always be new and unused.
