PARK DEVELOPMENT PROJECT MANAGER I
PARK DEVELOPMENT PROJECT MANAGER II

DEFINITION

To perform professional level work in project management activities related to City parks, and associated facilities and structures, landscape design, construction, maintenance, landscape architecture, rehabilitation and renovation activities; to coordinate and oversee maintenance operational program; and to perform a variety of technical tasks relative to assigned areas of responsibility.

DISTINGUISHING CHARACTERISTICS

Park Development Project Manager I – This is the entry level class in the Park Development Project Manager series. This class is distinguished from the journey level by the performance of the more routine tasks and duties assigned to positions within this series. Employees at this level are not expected to perform with the same independence of direction and judgment on matters allocated to the journey level. Since this class is typically used as a training class, employees may have only limited or no directly related work experience. Employees work under general supervision while learning job tasks.

Park Development Project Manager II – This is the journey level class within the Park Development Project Manager series and is distinguished from the I level by the assignment of the full range of duties. Employees at this level receive only occasional instruction or assistance as new, unusual or unique situations arise and are fully aware of the operating procedures and policies within the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from the I level.

SUPERVISION RECEIVED AND EXERCISED

Park Development Project Manager I

Receives general supervision from management personnel.

May exercise direct supervision over assigned support and maintenance staff.

Park Development Project Manager II

Receives direction from management personnel.

May exercise direct supervision over assigned support and maintenance staff; may exercise technical and functional supervision over technical support staff.
EXAMPLES OF ESSENTIAL DUTIES - Duties may include, but are not limited to, the following:

Plan, coordinate and oversee park development construction, renovation and rehabilitation projects; manage bid process, including pre-bid conferences and walk-throughs; provide technical information in response to bidder inquiries; and administer construction projects, including managing project budgets and conducting field inspections.

Determine feasibility and costs of requests for services and proposed projects; prepare budgets, cost estimates and project schedules for capital projects.

Establish schedules and methods for project management and contract administration related to park and landscape design, site construction, renovation and maintenance.

Plan, prioritize, assign and review the work of professional staff and consultants involved in park and landscape design, construction, landscape architecture and renovation.

Plan, coordinate and monitor facility improvement and maintenance projects; develop scope of work, manage the environmental review and permitting process when assigned to capital project, trail and open space development projects, confer with stakeholders and consultants; prepare construction plans and documents, budget reports, and authorization-related recommendations; perform and coordinate plan reviews.

Assist in the preparation of assigned program and project budgets; prepare cost estimates for budget recommendations relative to assigned program responsibilities; submit justifications for staff, supplies, equipment, and services; monitor and control expenditures of assigned projects.

Participate in the selection of technical and administrative support staff; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline procedures.

Conduct public workshops; prepare and make presentations to a variety of groups including neighborhood groups, Parks & Recreation Commission and City Council.

Review and approve monthly invoices from a variety of consultants and vendors.

Maintain and update design standards and technical specifications through on-going research, field trials and critical analysis to determine the most suitable products and construction best practices.

Perform design review and construction oversight of City maintained landscapes within the public right of way and City owned parks; monitor and coordinate private and public park and landscape development projects with internal and external customers, consultants, contractors and developers.

Prepare and administer grants.

Answer questions and provide information to the public; investigate complaints and recommend corrective action as necessary to resolve complaints.
Build and maintain positive working relationships with co-workers, other City employee and the public using principles of good customer service.

Perform related duties as assigned.
